INDEPENDENT AUDITORS' REPORT

To the Members of Supermarket Grocery Supplies Private Limited
Report on the Audit of Consolidated Financial Statements Opinion
We have audited the consolidated financial statements of Supermarket Grocery Supplies Private Limited (hereinafter referred to as the 'Holding Company") and its subsidiaries (Holding Company and its subsidiaries together referred to as "the Group"), which comprise the consolidated balance sheet as at 31 March 2021, and the consolidated statement of profit and loss (including other comprehensive income), consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").
In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of reports of other auditors on separate financial statements of such subsidiaries, as were audited by the other auditors, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group, as at 31 March 2021, of its consolidated loss and other comprehensive income, consolidated changes in equity and consolidated cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in terms of the Code of Ethics issued by the Institute of Chartered Accountants of India and the relevant provisions of the Act, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence obtained by us along with the consideration of audit reports of the other auditors referred to in the "Other Matters" paragraph below, is sufficient and appropriate to provide a basis for our opinion on the consolidated financial statements.

Emphasis of matter

We draw attention to Note 31.2 of the consolidated financial statements, which describes the event relating to a cyber security incident identified by management, the related investigations and remedial actions by the Company and management's assessment that such incident did not have any impact on the Group's consolidated financial statements for the year ended 31 March 2021.

We also draw attention to Note 42 of the consolidated financial statements, which describes the following subsequent events relating to:

B S R & Co. (a partnership firm with Registration No. BA61223) converted into B S R & Co. LLP
(a Limited Liability Partnership with LLP Registration No. AAB-8181) with effect from October 14, 2013
Registered Office:
14th Floor, Central B Wing and North C Wing, [o=uj IT Park 4, Nesco Center, Western Express Highway, Goregaon (East), Mumbai - 400063

Supermarket Grocery Supplies Private Limited Independent Auditor's Report (continued)

Emphasis of matter (continued)

Acquisition of majority stake in the Holding Company by Tata Digital Limited, a wholly owned subsidiary of Tata Sons Limited post approval from the Competition Commission of India through primary funding and secondary funding.

Business Transfer Agreement entered by the Holding Company to sale and transfer its business undertaking in connection with the wholesale business including development, maintenance, and licensing of the website www.bigbasket.com and the "bigbasket" mobile application

platforms to Innovative Retail Concepts Private Limited (which became its wholly owned subsidiary in pursuant to the investor agreement with Innovative Retail Concepts Private Limited and its then existing shareholders). Accordingly, the Holding Company sold the business undertaking on a going concern basis.

One-time cash settlement of outstanding Employee Stock Options made by the Holding Company.

Our opinion is not modified in respect of the above matters.

Other Information

The Holding Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the holding Company's annual report, but does not include the financial statements and our auditors' report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the other information included in the Board of Director report, or based on the work we have performed and based on the work done/ audit report of other auditors, if we conclude that there is a material misstatement of this other information, we are required to communicate the matter to those charged with governance and take necessary actions, as applicable under the applicable laws and regulations.

The other information is not made available to us at the date of this auditors' report. We have nothing to report in this regard.

Management's and Board of Directors' Responsibility for the Consolidated Financial Statements
The Holding Company's Management and Board of Directors are responsible for the preparation and presentation of these consolidated financial statements in term of the requirements of the Act that give a true and fair view of the consolidated state of affairs, consolidated profit/ loss and other comprehensive income, consolidated statement of changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act.

Supermarket Grocery Supplies Private Limited Independent Auditor's Report (continued)
Management's and Board of Directors' Responsibility for the Consolidated Financial Statements (continued)
The respective Management and Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of each company and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Management and Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Management and Board of Directors of the companies included in the Group are responsible for assessing the ability of each company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group is responsible for overseeing the financial reporting process of each company.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements
Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on the internal financial controls with reference to the consolidated financial statements and the operating effectiveness of such controls based on our audit.

Supermarket Grocery Supplies Private Limited Independent Auditor's Report (continued)

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements (continued)
Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.

Conclude on the appropriateness of Management and Board of Directors use of the going concern basis of accounting in preparation of consolidated financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the appropriateness of this assumption. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Obtain sufficient appropriate audit evidence regarding the financial information of such entities or business activities within the Group and its associates and joint ventures and joint operations to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of financial information of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion. Our responsibilities in this regard are further described in the section titled 'Other Matters' in this audit report.

We believe that the audit evidence obtained by us along with the consideration of audit reports of the other auditors referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Supermarket Grocery Supplies Private Limited Independent Auditor's Report (continued)
Other Matters
We did not audit the financial statements of two subsidiaries, whose financial statements reflect total assets of INR 21.08 million as at 31 March 2021, total revenues of INR 185.61 million and net cash outflows amounting to INR 16.32 million for the year ended on that date, as considered in the consolidated financial statements. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, and our report in terms of sub-section
of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries, is based solely on the audit reports of the other auditors.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements certified by the Management.

Report on Other Legal and Regulatory Requirements

As required by Section 143(3) of the Act, based on our audit and on the consideration of reports of the other auditors on separate financial statements of such subsidiaries as were audited by other auditors, as noted in the 'Other Matters' paragraph, we report, to the extent applicable, that:

We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.

In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.

The consolidated balance sheet, the consolidated statement of profit and loss (including other comprehensive income), the consolidated statement of changes in equity and the consolidated statement of cash flows dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.

In our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified under section 133 of the Act.

On the basis of the written representations received from the directors of the Holding Company as on 31 March 2021 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors of its subsidiary companies, none of the directors of the Group companies is disqualified as on 31 March 2021 from being appointed as a director in terms of Section 164(2) of the Act.

With respect to the adequacy of the internal financial controls with reference to financial statements of the Holding Company and its subsidiary companies incorporated in India and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".

Supermarket Grocery Supplies Private Limited Independent Auditor's Report (continued)
Report on Other Legal and Regulatory Requirements (continued)

With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of

the reports of the other auditors on separate financial statements of the subsidiaries as noted in the 'Other Matters' paragraph:

The Group does not have any pending litigations as at 31 March 2021 that would impact its financial position.

The Group did not have any material foreseeable losses on long-term contracts including derivative contracts during the year ended 31 March 2021.

There are no amounts which are required to be transferred to the Investor Education and Protection Fund by the Holding Company or its subsidiary companies incorporated in India during the year ended 31 March 2021.

The disclosures in the consolidated financial statements regarding holdings as well as dealings in specified bank notes during the period from 8 November 2016 to 30 December 2016 have not been made in the financial statements since they do not pertain to the financial year ended 31 March 2021.

With respect to the matter to be included in the Auditor's report under section 197(16):

The Holding Company and its subsidiary companies are private limited companies under the definition of the Act, hence the provisions of Section 197 (read with Schedule V) to the Act is not applicable to these companies.

Date:29th November 2021

Annexure A to the Independent Auditors' report on the consolidated financial statements of Supermarket Grocery Supplies Private Limited for the year ended 31 March 2021.

Report on the internal financial controls with reference to the aforesaid financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013

(Referred to in paragraph A (f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Opinion

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31 March 2021, we have audited the internal financial controls with reference to consolidated financial statements of Supermarket Grocery Supplies Private Limited (hereinafter referred to as "the Holding Company"). The subsidiary companies are exempt from the requirements of clause (i) of Section 143(3) of the Companies Act, 2013 (hereinafter referred to as "the Act").
In our opinion, the Holding Company has, in all material respects, adequate internal financial controls with reference to consolidated financial statements and such internal financial controls were operating effectively as at 31 March 2021, based on the internal financial controls with reference to consolidated financial statements criteria established by such companies considering the essential components of such internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").
Management's Responsibility for Internal Financial Controls

The Holding Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls with reference to consolidated financial statements based on the criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the internal financial controls with reference to consolidated financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to consolidated financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to consolidated financial statements were established and maintained and if such controls operated effectively in all material respects.

Annexure A to the Independent Auditors' report on the consolidated financial statements of Supermarket Grocery Supplies Private Limited for the year ended 31 March 2021 (continued)

Auditors' Responsibility (continued)

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements included obtaining an understanding of internal financial controls with reference to consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of the internal controls based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.
We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to consolidated financial statements.
Meaning of Internal Financial controls with Reference to Consolidated Financial Statements

A company's internal financial controls with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial controls with Reference to Consolidated Financial Statements

Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial controls with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Annexure A to the Independent Auditors' report on the consolidated financial statements of Supermarket Grocery Supplies Private Limited for the year ended 31 March 2021 (continued)

Other Matters
As per the Board of Directors of subsidiary companies in the Group, in view of the MCA notification dated 13 June 2017, the subsidiary companies are exempt from the requirements of Section 143(3)(i) of the Act and therefore the report on adequacy of the internal financial controls and operating effectiveness of internal controls is not being made with respect to the aforesaid subsidiary companies.

Disclosure of significant accounting policies [Text Block]

Reporting entity
Supermarket Grocery Supplies Private Limited (referred to as “the Company” or “SGSPL”) together with its subsidiaries (collectively referred to as the “Group”) is primarily involved in the business of trading of grocery and other household products. The Group is also engaged in the business of building, deploying and maintaining smart vending machines for selling groceries and other food items.

The Company is a private limited Company incorporated and domiciled in India and has its registered office at Bengaluru, Karnataka, India.

The Group comprises the following consolidated entity:

Name	Relationship	% Shareholding as on 31 March 2021	% Shareholding as on 31 March 2020
Delyver Retail Network Private Limited	Subsidiary	100.00%	100.00%
Savis Retail Network Private Limited	Subsidiary	100.00%	100.00%
Dailyninja Delivery Services Private Limited	Subsidiary	98.72%	98.72%

Basis of preparation

Statement of compliance

These consolidated financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of Companies Act, 2013, (‘the Act’) and other relevant provisions of the Act.

The consolidated financial statements were authorized for issue by the Holding Company’ Board of Directors on 29 November 2021.

Details of the Group’s accounting policies are included in Note 3.

Functional and presentation currency

These consolidated financial statements are presented in INR in millions, which is also the Group’s functional currency.

Basis of measurement

The consolidated financial statements have been prepared on the historical cost basis except for the following items:

Items	Measurement basis
Certain financial assets	Fair value
Employee Stock Option Plan and Stock Appreciation Rights	Fair value
Net defined benefit liability	Present value of defined benefit obligations

Basis of preparation (continued)

Use of estimates and judgements

The preparation of the consolidated financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income, expenses and disclosure of contingent liabilities. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on a periodic basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. In particular, information about significant areas of estimation, uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amounts recognized in the consolidated financial statements is included in the following notes:

Impairment of financial assets: The Group assesses on a forward-looking basis, the expected credit losses associated with its assets carried at amortised cost.
Leases: The Group considers all the extension-options under the commercial contracts for determining the lease-term which forms the basis for the measurement of right-of-use assets and the corresponding lease-liability.

All assets and liabilities are classified into current and non-current.

Assets

An asset is classified as current when it satisfies any of the following criteria:

it is expected to be realised in, or is intended for sale or consumption in, the Group's normal operating cycle;
b) it is held primarily for the purpose of being traded;
c) it is expected to be realised within 12 months after the reporting date;
d) or it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.

Current assets include the current portion of non-current financial assets.

All other assets are classified as non-current.

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

a) it is expected to be settled in the Group's normal operating cycle;
b) it is held primarily for the purpose of being traded;
c) it is due to be settled within 12 months after the reporting date; or
d) the Group does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Current liabilities include current portion of non-current financial liabilities.

All other liabilities are classified as non-current.

Operating cycle

Operating cycle is the time between the acquisition of assets for processing and their realization in cash or cash equivalents with a period of 12 months.

Basis of preparation (continued)

Measurement of fair values

A number of the Group's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

The Group has an established control framework with respect to the measurement of fair values. Significant valuation issues, if any, are reported to the Group's management.

Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs)

When measuring the fair value of an asset or a liability, the Group uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Group recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further information about the assumptions made in measuring fair values is included in the following notes:

Note 35 – share based payment arrangements; and
Note 37 – financial instruments.

COVID-19

On account of the Covid 19 pandemic, the Indian Central Government had imposed a nationwide stringent lockdown on 23 March 2020. The lockdown was in force till 31 May 2020. State-wise relaxations were introduced on a gradual basis from 1 June 2020. However, during the period of lockdown and even subsequently, the Group has not been severely affected, since it deals largely with sale of essential products. The Group has considered the possible effects that may result from COVID-19 on the carrying amounts of financial assets, receivables, inventories, property plant and equipment, intangibles as well as on liabilities accrued and the going concern assumption. In developing the assumptions considering the possible future uncertainties in the economic conditions because of this pandemic, the Group has used internal and external information. Having reviewed the underlying data and based on current estimates, the Group does not expect any material impact on the carrying amount of its assets and liabilities. The Group also does not expect any impact on the classification of its assets and liabilities. The impact of COVID-19 on the Group's financial statements may differ from that estimated as at the date of approval of these financial statements and the Group will continue to closely monitor any material changes to future economic conditions. The Group has also evaluated the impact of the same on the credit risk, liquidity risk, market risk, and interest risk and does not foresee any material impact.

Significant accounting policies

Financial instruments

Recognition and initial measurement

Trade receivables and debt securities issued are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Group becomes a party to the contractual provisions of the instrument.

A financial asset or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as measured at amortised cost, FVOCI or Fair Value Through Profit or Loss (FVTPL).

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Group changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Group may irrevocably elect to present subsequent changes in the investment's fair value in OCI (designated as FVOCI – equity investment). This election is made on an investment by investment basis.

All financial assets not classified as measured at amortised cost of FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets: Business model assessment

The Group makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;

Significant accounting policies (continued)

Financial instruments (continued)

Classification and subsequent measurement (continued)

how the performance of the portfolio is evaluated and reported to the Group’s management;
the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed; and
the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

Financial assets: Assessment whether contractual cash flows are solely payments of principal and interest

For the purpose of this assessment, ‘principal’ is defined as the fair value of the financial asset on initial recognition. ‘Interest’ is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risks and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Group considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Group considers:

contingent events that would change the amount or timing of cash flows;
terms that may adjust the contractual coupon rate, including variable interest rate features;
prepayment and extension features; and
terms that limit the Group’s claim to cash flows from specified assets (e.g. non-recourse features)

Financial assets: Subsequent measurement and gains and losses

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in the statement of profit or loss.
Financial assets at amortised cost	These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income and impairment are recognised in the statement of profit or loss. Any gain or loss on derecognition is recognised in the statement of profit or loss.
Equity investments at FVOCI	These assets are subsequently measured at fair value. Dividends are recognised as income in the statement of profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains or losses are recognised in OCI and are not reclassified to the statement of profit or loss.

Financial liabilities: Classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in the statement of profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense is recognised in the statement of profit or loss. Any gain or loss on derecognition is also recognised in the statement of profit or loss.

Significant accounting policies (continued)

Financial instruments (continued)

Derecognition

Financial assets

The Group derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Group enters into transactions whereby it transfers assets recognised on its balance sheet,but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

Financial liabilities

The Group derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire.

The Group also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in the statement of profit or loss.

Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

Compound financial instruments

Compound financial instruments issued by the Group comprise compulsorily convertible cumulative preference shares denominated in INR that can be converted to equity shares at the option of the holder, when the number of shares to be issued is fixed and does not vary with changes in fair value.

The liability component of a compound financial instrument is initially recognised at the fair value of a similar liability that does not have an equity conversion option. The equity component is initially recognised at the difference between the fair value of the compound financial instruments as a whole and the fair value of the liability component.

Subsequent to initial recognition, the liability component of a compound financial instrument is measured at fair value through the statement of profit and loss.

Significant accounting policies (continued)

Business Combination

Business combinations (other than common control business combinations) on or after 1 April 2015

As part of transition to Ind AS, the Group has elected to apply the relevant Ind AS, viz. Ind AS 103, Business Combinations , to the business combination that occurred after 1 April 2015. In accordance with Ind AS 103, the Group accounts for this business combination, using the acquisition method when control is transferred to the Group (see note 3b(i)). The consideration transferred for the business combination is generally measured at fair value as at the date the control is acquired (acquisition date), as are the net identifiable assets acquired. Any goodwill that arises is tested annually for impairment. Transaction costs are expensed as incurred, except to the extent related to debt or equity securities.

The consideration transferred does not include amounts related to the settlement of pre-existing relationships with the acquiree. Such amounts are generally recognised in profit and loss.

Any contingent consideration is measured at fair value at the date of acquisition. If an obligation to pay contingent consideration that meets the definition of a financial instrument is classified as equity, then it is not re-measured subsequently and settlement is accounted for within equity. Other contingent consideration is re-measured at fair value at each reporting date and changes in the fair value of the contingent consideration are recognised in profit and loss.

Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has right to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

Non-controlling interest (“NCI”)

NCI are measured at their proportionate share of the acquirees’ net identifiable assets at the date of acquisition. Changes in the Group’s interest in the subsidiary that do not result in a loss of control are accounted for as equity transactions.

Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

Property, plant and equipment

Recognition and measurement

Items of property, plant and equipment, are measured at cost, less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment comprises its purchase price, including non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

Significant accounting policies (continued)

Property, plant and equipment (continued)

Recognition and measurement (continued)

The cost of a self-constructed item of property, plant and equipment comprises the cost of materials and direct labour, any other costs directly attributable to bringing the item to working condition for its intended use, and estimated costs of dismantling and removing the item and restoring the site on which it is located.
If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognized in the statement of profit or loss.

Advance paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non-current assets and the cost of the assets not put to use before such date are disclosed under ‘capital work-in-progress’.

Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the

Group.

Depreciation

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual values over their estimated useful lives using the straight-line method and is generally recognised in the statement of profit or loss.

The useful lives of items of property, plant and equipment for the current and comparative periods are as follows:

Asset	Useful life
Computers, servers and accessories	3 years
Plant and machinery	1 to 15 years
Office equipment	3 to 15 years
Furniture and fixtures	3 to 10 years
Leasehold improvement	Useful life or lease term, whichever is shorter
Vehicles	8 years

Based on technical evaluation and consequent advice, the management believes that its estimates of useful lives as given above best represent the period over which management expects to use these assets, which is different, in certain cases, from the useful lives as prescribed under Part C of Schedule II of the Companies Act, 2013.

Depreciation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

Depreciation on additions (disposals) is provided on a pro-rata basis i.e. from (up to) the date on which asset is ready for use (disposed of).

Significant accounting policies (continued)

Goodwill and other intangible assets

Goodwill

Goodwill represents the cost of business acquired in excess of the Group’s interest in the net fair value of identifiable assets, liabilities and contingent liabilities of the acquiree. When the net fair value of the identifiable assets, liabilities and contingent liabilities acquired exceed the cost of business acquisition, a gain is recognised immediately in the net profit in the consolidated statement of profit or loss. Goodwill is measured at cost less accumulated impairment losses.

Goodwill is tested for impairment annually, at the end of each financial year.

Intangible assets

Recognition and measurement

Other intangible assets including those acquired by the Group in a business combination are initially measured at cost. Such intangible assets are subsequently measured at cost less accumulated amortisation and any accumulated impairment losses.

Subsequent expenditure

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is recognised in the statement of profit or loss as incurred.

Amortisation

Amortisation is calculated to write off the cost of intangible assets less their estimated residual values over their estimated useful lives using the straight line method, and is included in depreciation and amortisation in Statement of Profit and Loss.

The estimated useful lives are as follows:

Computer software 3 years
Intellectual property rights 3 years

Brand 3 years
IT platform 3 years
Trademark 3 years
Patents 3 years
Milk Partner relationship 5 years

Amortisation method, useful lives and residual values are reviewed at the end of each financial year and adjusted if appropriate.

Significant accounting policies (continued)

Leases

Effective from 1 April 2019, the Group has applied Ind AS 116 'Leases', which replaces the existing lease standard, Ind AS 17 'Leases' and other interpretations. The Group has applied Ind AS 116 using the modified retrospective approach and has accordingly not restated the comparative information. The Group at the inception of a contract, assesses whether a contract, is or contains a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Ind AS 116 introduces a single balance sheet lease accounting model for lessees. A lessee recognises a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. The Group has elected not to recognise right-of-use of assets and lease liabilities for short term leases that have a lease term of 12 months or less and leases of low value assets. The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term. Lessor accounting remains similar to the accounting under the previous standard i.e. lessor continues to classify leases as finance or operating lease.

This policy is applied to contracts entered into, or changed, on or after 1 April 2019. For contracts entered into before 1 April 2019, the determination of whether an arrangement is, or contains a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

As a lessee:
The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right of use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct cost incurred and an estimate of cost to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life or the end of the lease term. The estimated useful life of the right-of-use assets are determined on the same basis as those of property, plant and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate.

The lease payments include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Group is reasonably certain to exercise that option and payment of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is remeasured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments. When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset, or profit and loss if the right-of-use asset is already reduced to zero.
In the comparative period, leases in which a significant portion of the risks and rewards of ownership was not transferred to the Group as lessee was classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) was charged to profit or loss on a straight-line basis over the period of the lease unless the payments was structured to increase in line with expected general inflation to compensate for the lessor’s expected inflationary cost increases.

Significant accounting policies (continued)

Leases (Continued)

The Group has used the practical expedient, when applying Ind AS 116 to leases previously classified as operating leases under Ind AS 17 and therefore, has not reassessed whether a contract, is or contains a lease, at the date of initial application, relied on its assessment of whether leases are onerous, applying Ind AS 37 immediately before the date of initial application as an alternative to performing an impairment review, excluded initial direct costs from measuring the right of use asset at the date of initial application and used hindsight when determining the lease term if the contract contains options to extend or terminate the lease.

Inventories

Inventories are measured at the lower of cost and net realisable value. The cost of inventories is based on the first-in first-out formula, and

includes expenditure incurred in acquiring the inventories and other costs incurred in bringing them to their present location and condition.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated selling expenses.

The comparison of cost and net realisable value is made on an item-by-item basis.

Impairment

Impairment of financial assets

In accordance with Ind AS 109, the Group applies expected credit loss ("ECL") model for measurement and recognition of impairment loss on financial assets measured at amortised cost.

Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, ECL are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL.

Loss allowance for financial assets measured at amortised cost are deducted from gross carrying amount of the assets.

When determining and estimating estimated credit losses of a financial asset, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis based on the Group's historical experience and including forward looking information.

Measurement of expected credit losses
Expected credit losses are a probability weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive).

Presentation of allowance for expected credit losses in the balance sheet
Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

Write-off
The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Group determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write off.
Significant accounting policies (continued)

g. Impairment (continued)

Impairment of non-financial assets
The Group's non-financial assets, other than inventories and deferred taxes, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, the Group estimates the recoverable amount of the asset. For an asset or group of assets that does not generate largely independent cash inflows, the recoverable amount is determined for the cash generating unit to which the asset belongs. The recoverable amount of a CGU is higher of its 'Value in Use' and 'Fair Value less Costs to Sell'. 'Value in Use' is based on estimated future cash flows, discounted to their present value using a pre-tax discounting rate that reflects current market assessments of the time value of money and the risk specific to the CGU. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the Statement of Profit and Loss. If at the balance sheet date, there is an indication that if a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciable historical cost. An impairment loss is reversed only to the extent that the carrying amount of the asset does not exceed the net book value that would have been determined; if no impairment loss had been recognised.

Employee benefits

Short-term employee benefits

Employee benefits payable wholly within 12 months of receiving employee services are classified as short-term employee benefits. These benefits include salaries and wages, bonus and ex-gratia. Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the relative service is provided. A liability is recognised for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the amount of obligation can be estimated reliably.

Share-based payment transactions

The grant date fair value of equity settled share-based payment awards granted to employees is recognised as an employee expense, with a corresponding increase in equity, over the period that the employees unconditionally become entitled to the awards. The amount recognised as expense is based on the estimate of the number of awards for which the related service is expected to be met, such that the amount ultimately recognised as an expense is based on the number of awards that do meet the related service conditions at the vesting date. There are no share-based payment awards with non-vesting conditions.
The fair value of the amount payable to employees in respect of Stock Appreciation Rights ('SARs'), which are settled in cash, is recognised as an expense with a corresponding increase in liabilities, over the period during which the employees become unconditionally entitled to payment. The liability is remeasured at each reporting date and at settlement date based on the fair value of the SARs. Any changes in the liability are recognised in profit or loss.

Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. The Group makes specified monthly contributions towards Government administered provident fund scheme. Obligations for contributions to defined contribution plans are recognised as an employee benefit expense in the statement of profit or loss in the periods during which the related services are rendered by employees.

Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.
Significant accounting policies (continued)

Employee benefits (continued)

Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Group's gratuity benefit scheme is a defined benefit plan. The Group's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligation is performed annually by a qualified actuary using the projected unit credit method. Re-measurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised in OCI. The Group determines the net interest expense on the net defined benefit liability for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability, taking into account any changes in the net defined benefit liability during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in the statement of profit or loss.

Provisions (other than for employee benefits) and contingent liabilities

A provision is recognised if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost. Expected future operating losses are not provided for.

When no reliable estimate can be made, a disclosure is made as a contingent liability. A disclosure for a contingent liability is also made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Onerous contracts

A contract is considered to be onerous when the expected economic benefits to be derived by the Group from the contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision for an onerous contract is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before such a provision is made, the Group recognises any impairment loss on the assets associated with that contract.

Revenue

The Group recognises revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. A 5-step approach is used to recognise revenue as below:

Step 1: Identify the contract(s) with a customer
Step 2: Identify the performance obligation in contract
Step 3: Determine the transaction price
Step 4: Allocate the transaction price to the performance obligations in the contract
Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation

Significant accounting policies (continued)

j. Revenue (Continued)

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled revenue (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms. Unearned and deferred revenue ("contract liability") is recognised when there is billings in excess of revenues.

Sale of traded products

Revenue is recognised when a customer obtains control of the goods which is mainly upon delivery at the customer premises. Revenue is measured at fair value of the consideration received or receivable, after deduction of any trade discounts, volume rebates and any taxes or duties collected on behalf of the government which are levied on sales such as goods and services tax, etc. For certain contracts that permit the customer to return an item, revenue is recognised to the extent that it is probable that a significant reversal in the amount of cumulative revenue recognised will not occur. As a consequence, for those contracts for which the Group is unable to make a reasonable estimate of return, revenue is recognised sooner than when the return period lapses or a reasonable estimate can be made. A refund liability and an asset for recovery is recognised for these contracts and presented separately in the balance sheet.

Advertisement income

The Group derives revenue from advertisements hosted on its mobile based application and website. Revenue from advertisement income is recognized over the period of time.

Lease rentals from operating lease arrangements

Leases in which the Group as a lessor does not transfer substantially all the risks and rewards of ownership of the asset are classified as operating leases. Lease income from operating leases is recognised in the statement of profit and loss on a straight-line basis over the lease term, unless another systematic basis is more representative of the time pattern in which use benefit derived from the leased asset is diminished.

Recognition of interest income, dividend income or expense

Dividend income is recognized in the statement of profit or loss on the date on which the right to receive payment is established.

Interest income or expense is recognized using the effective interest method.

The ‘effective interest rate’ is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:
the gross carrying amount of the financial asset; or
the amortised cost of the financial liability.

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortised cost of the liability. However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

Significant accounting policies (continued)

Income tax

Income tax comprises current and deferred tax. It is recognized in the statement of profit or loss except to the extent that it relates to a business combination or an item recognized directly in equity or in other comprehensive income.

Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. Minimum Alternate Tax (MAT) under the provisions of the Income Tax Act is recognized as current tax in the statement of profit or loss. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognized amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Deferred tax

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognized in respect of carried forward tax losses and tax credits. Deferred tax is not recognized for:

temporary differences arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of the transaction;
temporary differences related to investments in subsidiary, associate and joint arrangement to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognized to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Group recognizes a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realized. Deferred tax assets – unrecognized or recognized, are reviewed at each reporting date and are recognized/reduced to the extent that it is probable/no longer probable respectively that the related tax benefit will be realized.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Group expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

Significant accounting policies (continued)

Foreign currency transactions

Foreign exchange transactions are recorded using the exchange rates prevailing on the dates of the respective transactions.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rates at the balance sheet date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at exchange rates when the fair value was determined. Non-monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at the date of transition. Exchange differences are recognized in the Statement of Profit and Loss.

Earnings/(loss) per share

The basic earnings / (loss) per share ('EPS') is computed by dividing the net profit / (loss) after tax for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. The number of shares used in computing diluted earnings per share comprises the weighted average number of shares considered for deriving basic earnings per share and also the weighted average number of equity shares that could have been issued on the conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period unless issued at a later date. In computing dilutive earning per share, only potential equity shares that are dilutive i.e. which reduces earnings per share or increases loss per share are included.

Cash flow statement

Cash flows are reported using the indirect method, whereby net profit / (loss) before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Group are segregated based on the available information.

Government grants

Government grants are recognized where there is reasonable assurance that the grant will be received and all attached conditions. When the grant relates to revenue, it is recognised in the statement of profit and loss on a systematic basis over the periods to which they relate. When the grant relates to an asset, it is treated as deferred income and recognised in the statement of profit and loss on a systematic basis over the useful life of the asset.

Recent Indian Accounting Standards (Ind AS)
The Ministry of Corporate Affairs ("MCA") through a notification dated 24 March 2021 amended Schedule III to the Companies Act, 2013. These amendments are applicable from 1 April 2021 and enhances the disclosures required to be made by the Company in its financial statements. As of now, the Company is evaluating the effect of these amendments on its financial statements.

Textual information (4)

Disclosure of significant accounting policies [Text Block]

Reporting entity
Supermarket Grocery Supplies Private Limited (referred to as the Company or SGSPL) together with its subsidiaries (collectively referred to as the Group) is primarily involved in the business of trading of grocery and other household products. The Group is also engaged in the business of building, deploying and maintaining smart vending machines for selling groceries and other food items.

The Company is a private limited Company incorporated and domiciled in India and has its registered office at Bengaluru, Karnataka, India.

The Group comprises the following consolidated entity:

Name	Relationship	% Shareholding as on 31 March 2020	% Shareholding as on 31 March 2019
Delyver Retail Network Private Limited	Subsidiary	100.00%	100.00%
Savis Retail Network Private Limited	Subsidiary	100.00%	85.20%
Dailyninja Delivery Services Private Limited	Subsidiary	98.72%	-

Basis of preparation

Statement of compliance

These consolidated financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of Companies Act, 2013, (the Act) and other relevant provisions of the Act.

The consolidated financial statements were authorized for issue by the Holding Company Board of Directors on 3 December 2020.

Details of the Groups accounting policies are included in Note 3.

Functional and presentation currency

These consolidated financial statements are presented in INR in millions, which is also the Groups functional currency.

Basis of measurement

The consolidated financial statements have been prepared on the historical cost basis except for the following items:

Items	Measurement basis
Certain financial assets and liabilities	Fair value
Employee Stock Option Plan	Fair value
Net defined benefit (asset)/liability	Fair value of plan assets less present value of defined benefit obligations

Basis of preparation (continued)
Use of estimates and judgements

The preparation of the consolidated financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income, expenses and disclosure of contingent liabilities. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on a periodic basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. In particular, information about significant areas of estimation, uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amounts recognized in the consolidated financial statements is included in the following notes:

Contingent liabilities: Contingent liabilities are not recognized in the consolidated financial statements but are disclosed in the notes. They are assessed continually to determine whether an outflow of resources embodying economic benefits has become probable. If it becomes probable that an outflow of future economic benefits will be required for an item previously dealt with as a contingent liability, a provision is recognized in the consolidated financial statements of the period in which the change in probability occurs (except in the extremely rare circumstances where no reliable estimate can be made).

Income taxes: Significant judgements are involved in determining the provision for income taxes, including the amount expected to be paid or recovered in connection with uncertain tax positions. Availability of future taxable profits against which deferred tax amount can be used.

Measurement of defined benefit obligations: Key actuarial assumptions used for actuarial valuation.

Impairment of financial assets: The Group assesses on a forward looking basis, the expected credit losses associated with its assets carried at amortised cost.

Property, plant and equipment: Useful life of asset.

Leases: The Group considers all the extension-options under the commercial contracts for determining the lease-term which forms the basis for the measurement of right-of-use assets and the corresponding lease-liability.

Other estimates: The preparation of consolidated financial statements involves estimates and assumptions that affect the reported amount of assets, liabilities, disclosure of contingent liabilities at the date of consolidated financial statements and the reported amount of revenues and expenses for the reporting period. Specifically, the Group estimates the probability of collection of accounts receivable by analyzing historical payment patterns, customer concentrations, customer credit-worthiness and current economic trends. If the financial condition of a customer deteriorates, additional allowances may be required.

Basis of preparation (continued)

All assets and liabilities are classified into current and non-current.

Assets

An asset is classified as current when it satisfies any of the following criteria:

it is expected to be realised in, or is intended for sale or consumption in, the Groups normal operating cycle;
b) it is held primarily for the purpose of being traded;
c) it is expected to be realised within 12 months after the reporting date;
d) or it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.

Current assets include the current portion of non-current financial assets.

All other assets are classified as non-current.

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

a) it is expected to be settled in the Groups normal operating cycle;
b) it is held primarily for the purpose of being traded;
c) it is due to be settled within 12 months after the reporting date; or
d) the Group does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Current liabilities include current portion of non-current financial liabilities.

All other liabilities are classified as non-current.

Operating cycle

Operating cycle is the time between the acquisition of assets for processing and their realization in cash or cash equivalents with a period of 12 months.

Measurement of fair values

A number of the Groups accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

The Group has an established control framework with respect to the measurement of fair values. Significant valuation issues, if any, are reported to the Groups management.

Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs)

Measurement of fair values (continued)

When measuring the fair value of an asset or a liability, the Group uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Group recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further information about the assumptions made in measuring fair values is included in the following notes:

Note 35 share based payment arrangements; and
Note 37 financial instruments.

COVID-19

On account of the COVID 19 pandemic, the Indian Central Government had imposed a nationwide stringent lockdown on 23 March 2020. The lockdown was in force till 31 May 2020. State-wise relaxations were introduced on a gradual basis from 1 June 2020. However, during the period of lockdown and even subsequently, the Group has not been severely affected, since it deals largely with sale of essential products. The Group has considered the possible effects that may result from COVID-19 on the carrying amounts of financial assets, receivables, inventories, property plant and equipment, intangibles, goodwill as well as on liabilities accrued and the going concern assumption. In developing the assumptions considering the possible future uncertainties in the economic conditions because of this pandemic, the Group has used internal and external information. Having reviewed the underlying data and based on current estimates, the Group does not expect any material impact on the carrying amount of its assets and liabilities. The Group also does not expect any impact on the classification of its assets and liabilities. The impact of COVID-19 on the Groups financial statements may differ from that estimated as at the date of approval of these financial statements and the Group will continue to closely monitor any material changes to future economic conditions. The Group has also evaluated the impact of the same on the credit risk, liquidity risk, market risk, and interest risk and does not foresee any material impact.

Going concern

The Group has incurred a net loss of INR 6,101.40 millions during the year ended 31 March 2020. However, as on that date the Groups net worth is INR 16,671.55 millions and the Groups current assets exceed its current liabilities by INR 14,619.86 millions. While the Group has registered significant growth in business over the years, it has also incurred significant losses in the past to invest in growth. However, management based on the growth in business recorded during the year and over the past several years, results of the Group post the balance sheet date and future projections, believes that it will be able to generate sufficient cash flows to meet its obligations as they fall due and accordingly continue as a going concern. These assumptions also require the Group to obtain fresh infusion of capital from investors to be able to continue as a going concern in the foreseeable future. These financial statements have been prepared on a going concern basis and do not include any adjustments relating to recoverability and classification of assets and liabilities.

Significant accounting policies

Financial instruments

Recognition and initial measurement

Trade receivables and debt securities issued are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Group becomes a party to the contractual provisions of the instrument.

Significant accounting policies (continued)

Financial instruments (continued)

Recognition and initial measurement (continued)

A financial asset or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as measured at amortised cost, FVOCI or Fair Value Through Profit or Loss (FVTPL).

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Group changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Group may irrevocably elect to present subsequent changes in the investments fair value in OCI (designated as FVOCI equity investment). This election is made on an investment by investment basis.

All financial assets not classified as measured at amortised cost of FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets: Business model assessment

The Group makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether managements strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
how the performance of the portfolio is evaluated and reported to the Groups management;
the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed; and
the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

Significant accounting policies (continued)

Financial instruments (continued)

Classification and subsequent measurement (continued)

Financial assets: Assessment whether contractual cash flows are solely payments of principal and interest

For the purpose of this assessment, principal is defined as the fair value of the financial asset on initial recognition. Interest is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risks and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Group considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Group considers:

contingent events that would change the amount or timing of cash flows;
terms that may adjust the contractual coupon rate, including variable interest rate features;
prepayment and extension features; and
terms that limit the Groups claim to cash flows from specified assets (e.g. non-recourse features)

Financial assets: Subsequent measurement and gains and losses

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in the statement of profit or loss.
Financial assets at amortised cost	These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income and impairment are recognised in the statement of profit or loss. Any gain or loss on derecognition is recognised in the statement of profit or loss.
Equity investments at FVOCI	These assets are subsequently measured at fair value. Dividends are recognised as income in the statement of profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains or losses are recognised in OCI and are not reclassified to the statement of profit or loss.

Financial liabilities: Classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in the statement of profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense is recognised in the statement of profit or loss. Any gain or loss on derecognition is also recognised in the statement of profit or loss.

Significant accounting policies (continued)

Financial instruments (continued)

Derecognition

Financial assets

The Group derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Group enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

Financial liabilities

The Group derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire.

The Group also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in the statement of profit or loss.

Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

Compound financial instruments

Compound financial instruments issued by the Group comprise compulsorily convertible cumulative preference shares denominated in INR that can be converted to equity shares at the option of the holder, when the number of shares to be issued is fixed and does not vary with changes in fair value.

The liability component of a compound financial instrument is initially recognised at the fair value of a similar liability that does not have an equity conversion option. The equity component is initially recognised at the difference between the fair value of the compound financial instruments as a whole and the fair value of the liability component.

Subsequent to initial recognition, the liability component of a compound financial instrument is measured at fair value through the statement of profit and loss.

Significant accounting policies (continued)

Business Combination

Business combinations (other than common control business combinations) on or after 1 April 2015

As part of transition to Ind AS, the Group has elected to apply the relevant Ind AS, viz. Ind AS 103, Business Combinations, to the business combination that occurred after 1 April 2015. In accordance with Ind AS 103, the Group accounts for this business combination, using the acquisition method when control is transferred to the Group (see note 3b(i)). The consideration transferred for the business combination is generally measured at fair value as at the date the control is acquired (acquisition date), as are the net identifiable assets acquired. Any goodwill that arises is tested annually for impairment. Transaction costs are expensed as incurred, except to the extent related to debt or equity securities.

The consideration transferred does not include amounts related to the settlement of pre-existing relationships with the acquiree. Such amounts are generally recognised in profit and loss.

Any contingent consideration is measured at fair value at the date of acquisition. If an obligation to pay contingent consideration that meets the definition of a financial instrument is classified as equity, then it is not re-measured subsequently and settlement is accounted for within equity. Other contingent consideration is re-measured at fair value at each reporting date and changes in the fair value of the contingent consideration are recognised in profit and loss.

Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has right to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

Non-controlling interest (NCI)

NCI are measured at their proportionate share of the acquirees net identifiable assets at the date of acquisition. Changes in the Groups interest in the subsidiary that do not result in a loss of control are accounted for as equity transactions.

Written put option issued to the non-controlling interest

The Group has issued written put options to non-controlling interest in a subsidiary of the Group in accordance with the terms of underlying agreement with such option holders. Should the option be exercised, the Group has to settle such liability by payment of cash.

Accounting on initial recognition:

The amount that may become payable under the option on exercise is recognised as a financial liability at its present value with a corresponding charge directly to the shareholders equity.

Significant accounting policies (continued)

Business Combination (continued)

Non-controlling interest (NCI) (continued)

Subsequent measurement:

The liability is subsequently accreted in the statement of profit and loss upto the redemption amount that is payable at the date on which the

option first becomes exercisable. In the event that the option expires unexercised, the liability is derecognised with a corresponding adjustment to equity.

Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

Property, plant and equipment

Recognition and measurement

Items of property, plant and equipment, are measured at cost, less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment comprises its purchase price, including non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

The cost of a self-constructed item of property, plant and equipment comprises the cost of materials and direct labour, any other costs directly attributable to bringing the item to working condition for its intended use, and estimated costs of dismantling and removing the item and restoring the site on which it is located.
If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognized in the statement of profit or loss.

Advance paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non-current assets and the cost of the assets not put to use before such date are disclosed under capital work-in-progress.

Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Group.

3. Significant accounting policies (continued)

Property, plant and equipment (continued)

Depreciation

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual values over their estimated useful lives using the straight-line method and is generally recognised in the statement of profit or loss.

The useful lives of items of property, plant and equipment for the current and comparative periods are as follows:

Asset	Useful life
Computers, servers and accessories	3 years
Plant and machinery	1 to 15 years
Office equipment	3 to 15 years
Furniture and fixtures	3 to 10 years
Leasehold improvement	Useful life or lease term, whichever is shorter
Vehicles	8 years

Based on technical evaluation and consequent advice, the management believes that its estimates of useful lives as given above best represent the period over which management expects to use these assets, which is different, in certain cases, from the useful lives as prescribed under Part C of Schedule II of the Companies Act, 2013.

Depreciation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

Depreciation on additions (disposals) is provided on a pro-rata basis i.e. from (up to) the date on which asset is ready for use (disposed of).

Goodwill and other intangible assets

Goodwill

Goodwill represents the cost of business acquired in excess of the Groups interest in the net fair value of identifiable assets, liabilities and contingent liabilities of the acquiree. When the net fair value of the identifiable assets, liabilities and contingent liabilities acquired exceed the cost of business acquisition, a gain is recognised immediately in the net profit in the consolidated statement of profit or loss. Goodwill is measured at cost less accumulated impairment losses.

Goodwill is tested for impairment annually, at the end of each financial year.

Intangible assets

Recognition and measurement

Other intangible assets including those acquired by the Group in a business combination are initially measured at cost. Such intangible assets are subsequently measured at cost less accumulated amortisation and any accumulated impairment losses.

Subsequent expenditure

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is recognised in the statement of profit or loss as incurred.
Significant accounting policies (continued)

Goodwill and other intangible assets (continued)

Intangible assets (continued)

Amortisation

Amortisation is calculated to write off the cost of intangible assets less their estimated residual values over their estimated useful lives using the straight line method, and is included in depreciation and amortisation in Statement of Profit and Loss.

The estimated useful lives are as follows:

Computer software 3 years
Intellectual property rights 3 years
Brand 3 years

IT platform 3 years
Trademark 3 years
Patents 3 years
Milk Partner relationship 5 years

Amortisation method, useful lives and residual values are reviewed at the end of each financial year and adjusted if appropriate.

Leases

Effective from 1 April 2019, the Group has applied Ind AS 116 'Leases', which replaces the existing lease standard, Ind AS 17 'Leases' and other interpretations. The Group has applied Ind AS 116 using the modified retrospective approach and has accordingly not restated the comparative information. The Group at the inception of a contract, assesses whether a contract, is or contains a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Ind AS 116 introduces a single balance sheet lease accounting model for lessees. A lessee recognises a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. The Group has elected not to recognise right-of-use of assets and lease liabilities for short term leases that have a lease term of 12 months or less and leases of low value assets. The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term. Lessor accounting remains similar to the accounting under the previous standard i.e. lessor continues to classify leases as finance or operating lease.

This policy is applied to contracts entered into, or changed, on or after 1 April 2019. For contracts entered into before 1 April 2019, the determination of whether an arrangement is, or contains a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

As a lessee:
The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right of use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct cost incurred and an estimate of cost to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

Significant accounting policies (continued)

Leases (continued)

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life or the end of the lease term. The estimated useful life of the right-of-use assets are determined on the same basis as those of property, plant and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate.

The lease payments include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Group is reasonably certain to exercise that option and payment of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is remeasured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments. When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset, or profit and loss if the right-of-use asset is already reduced to zero.

In the comparative period, leases of property, plant and equipment where the Group, as lessee, had substantially all the risks and rewards of ownership was classified as finance leases. Finance leases are capitalised at the leases inception at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in borrowings or other financial liabilities as appropriate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. Leases in which a significant portion of the risks
and rewards of ownership was not transferred to the Group as lessee was classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) was charged to profit or loss on a straight-line basis over the period of the lease unless the payments was structured to increase in line with expected general inflation to compensate for the lessors expected inflationary cost increases.

As a lessor:
Lease income from operating leases, where the Group is a lessor, is recognised in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflation.

Inventories

Inventories are measured at the lower of cost and net realisable value. The cost of inventories is based on the first-in first-out formula, and includes expenditure incurred in acquiring the inventories and other costs incurred in bringing them to their present location and condition.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated selling expenses.

The comparison of cost and net realisable value is made on an item-by-item basis.

Significant accounting policies (continued)

Impairment

Impairment of financial assets

In accordance with Ind AS 109, the Group applies expected credit loss (ECL) model for measurement and recognition of impairment loss on financial assets measured at amortised cost.

Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, ECL are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL.

Loss allowance for financial assets measured at amortised cost are deducted from gross carrying amount of the assets.

When determining and estimating estimated credit losses of a financial asset, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis based on the Groups historical experience and including forward looking information.

Measurement of expected credit losses
Expected credit losses are a probability weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive).

Presentation of allowance for expected credit losses in the balance sheet
Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

Write-off
The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Group determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write off.

Impairment of non-financial assets

The Groups non-financial assets, other than inventories and deferred taxes, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, the Group estimates the recoverable amount of the asset. For an asset or group of assets that does not generate largely independent cash inflows, the recoverable amount is determined for the cash generating unit to which the asset belongs. The recoverable amount of a CGU is higher of its Value in Use and Fair Value less Costs to Sell. Value in Use is based on estimated future cash flows, discounted to their present value using a pre-tax discounting rate that reflects current market assessments of the time value of money and the risk specific to the CGU. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the Statement of Profit and Loss. If at the balance sheet date, there is an indication that if a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciable historical cost. An impairment loss is reversed only to the extent that the carrying amount of the asset does not exceed the net book value that would have been determined; if no impairment loss had been recognised.

Significant accounting policies (continued)

Employee benefits

Short-term employee benefits

Employee benefits payable wholly within 12 months of receiving employee services are classified as short-term employee benefits. These benefits include salaries and wages, bonus and ex-gratia. Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the relative service is provided. A liability is recognised for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the amount of obligation can be estimated reliably.

Share-based payment transactions

The grant date fair value of equity settled share-based payment awards granted to employees is recognised as an employee expense, with a corresponding increase in equity, over the period that the employees unconditionally become entitled to the awards. The amount recognised as expense is based on the estimate of the number of awards for which the related service is expected to be met, such that the amount ultimately recognised as an expense is based on the number of awards that do meet the related service conditions at the vesting date. There are no share-based payment awards with non-vesting conditions.

The fair value of the amount payable to employees in respect of Stock Appreciation Rights (SARs), which are settled in cash, is recognised as an expense with a corresponding increase in liabilities, over the period during which the employees become unconditionally entitled to payment. The liability is remeasured at each reporting date and at settlement date based on the fair value of the SARs. Any changes in the

liability are recognised in profit or loss.

Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. The Group makes specified monthly contributions towards Government administered provident fund scheme. Obligations for contributions to defined contribution plans are recognised as an employee benefit expense in the statement of profit or loss in the periods during which the related services are rendered by employees.

Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Groups gratuity benefit scheme is a defined benefit plan. The Groups net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligation is performed annually by a qualified actuary using the projected unit credit method.

Significant accounting policies (continued)

Employee benefits

Defined benefit plans (continued)

Re-measurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised in OCI. The Group determines the net interest expense on the net defined benefit liability for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability, taking into account any changes in the net defined benefit liability during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in the statement of profit or loss.

Provisions (other than for employee benefits) and contingent liabilities

A provision is recognised if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost. Expected future operating losses are not provided for.

When no reliable estimate can be made, a disclosure is made as a contingent liability. A disclosure for a contingent liability is also made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Onerous contracts

A contract is considered to be onerous when the expected economic benefits to be derived by the Group from the contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision for an onerous contract is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before such a provision is made, the Group recognises any impairment loss on the assets associated with that contract.

Revenue

The Group recognises revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. A 5-step approach is used to recognise revenue as below:

Step 1: Identify the contract(s) with a customer
Step 2: Identify the performance obligation in contract
Step 3: Determine the transaction price
Step 4: Allocate the transaction price to the performance obligations in the contract
Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation
Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled revenue (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms. Unearned and deferred revenue (contract liability) is recognised when there is billings in excess of revenues.

Significant accounting policies (continued)

Revenue (continued)

Sale of traded products

Revenue is recognised when a customer obtains control of the goods which is mainly upon delivery at the customer premises. Revenue is measured at fair value of the consideration received or receivable, after deduction of any trade discounts, volume rebates and any taxes or duties collected on behalf of the government which are levied on sales such as goods and services tax, etc. For certain contracts that permit the customer to return an item, revenue is recognised to the extent that it is probable that a significant reversal in the amount of cumulative revenue recognised will not occur. As a consequence, for those contracts for which the Group is unable to make a reasonable estimate of return, revenue is recognised sooner than when the return period lapses or a reasonable estimate can be made. A refund liability and an asset for recovery is recognised for these contracts and presented separately in the balance sheet.

Advertisement income

The Group derives revenue from advertisements hosted on its mobile based application and website. Revenue from advertisement income is recognized over the period of time.

Lease rentals from operating lease arrangements

Leases in which the Group as a lessor does not transfer substantially all the risks and rewards of ownership of the asset are classified as operating leases. Lease income from operating leases is recognised in the statement of profit and loss on a straight-line basis over the lease term, unless another systematic basis is more representative of the time pattern in which use benefit derived from the leased asset is diminished.

Recognition of interest income, dividend income or expense

Dividend income is recognized in the statement of profit or loss on the date on which the right to receive payment is established.

Interest income or expense is recognized using the effective interest method.

The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:
the gross carrying amount of the financial asset; or
the amortised cost of the financial liability.

Significant accounting policies (continued)

Recognition of interest income, dividend income or expense (continued)

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortised cost of the liability. However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

Income tax

Income tax comprises current and deferred tax. It is recognized in the statement of profit or loss except to the extent that it relates to a business combination or an item recognized directly in equity or in other comprehensive income.

Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. Minimum Alternate Tax (MAT) under the provisions of the Income Tax Act is recognized as current tax in the statement of profit or loss. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognized amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Deferred tax

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognized in respect of carried forward tax losses and tax credits. Deferred tax is not recognized for:

temporary differences arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of the transaction;
temporary differences related to investments in subsidiary, associate and joint arrangement to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognized to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Group recognizes a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realized. Deferred tax assets unrecognized or recognized, are reviewed at each reporting date and are recognized/reduced to the extent that it is probable/no longer probable respectively that the related tax benefit will be realized.

Significant accounting policies (continued)

Income tax (continued)

Deferred tax (continued)

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Group expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

Foreign currency transactions

Foreign exchange transactions are recorded using the exchange rates prevailing on the dates of the respective transactions.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rates at the balance sheet date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at exchange rates when the fair value was determined. Non-monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at the date of transition. Exchange differences are recognized in the Statement of Profit and Loss.

Earnings/(loss) per share

The basic earnings / (loss) per share (EPS) is computed by dividing the net profit / (loss) after tax for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. The number of shares used in computing diluted earnings per share comprises the weighted average number of shares considered for deriving basic earnings per share and also the weighted average number of equity shares that could have been issued on the conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period unless issued at a later date. In computing dilutive earning per share, only potential equity shares that are dilutive i.e. which reduces earnings per share or increases loss per share are included.

Cash flow statement

Cash flows are reported using the indirect method, whereby net profit / (loss) before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Group are segregated based on the available information.

Significant accounting policies (continued)

Government grants

Government grants are recognized where there is reasonable assurance that the grant will be received and all attached conditions. When the grant relates to revenue, it is recognised in the statement of profit and loss on a systematic basis over the periods to which they relate. When the grant relates to an asset, it is treated as deferred income and recognised in the statement of profit and loss on a systematic basis over the useful life of the asset.

Reporting entity
Supermarket Grocery Supplies Private Limited (referred to as “the Company” or “SGSPL”) together with its subsidiaries (collectively referred to as the “Group”) is primarily involved in the business of trading of grocery and other household products. The Group is also engaged in the business of building, deploying and maintaining smart vending machines for selling groceries and other food items.

The Company is a private limited Company incorporated and domiciled in India and has its registered office at Bengaluru, Karnataka, India.

The Group comprises the following consolidated entity:

Name	Relationship	% Shareholding as on 31 March 2021	% Shareholding as on 31 March 2020
Delyver Retail Network Private Limited	Subsidiary	100.00%	100.00%
Savis Retail Network Private Limited	Subsidiary	100.00%	100.00%
Dailyninja Delivery Services Private Limited	Subsidiary	98.72%	98.72%

Basis of preparation

Statement of compliance

These consolidated financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of Companies Act, 2013, (‘the Act’) and other relevant provisions of the Act.

The consolidated financial statements were authorized for issue by the Holding Company’ Board of Directors on 29 November 2021.

Details of the Group’s accounting policies are included in Note 3.

Functional and presentation currency

These consolidated financial statements are presented in INR in millions, which is also the Group’s functional currency.

Basis of measurement

The consolidated financial statements have been prepared on the historical cost basis except for the following items:

Items	Measurement basis
Certain financial assets	Fair value
Employee Stock Option Plan and Stock Appreciation Rights	Fair value
Net defined benefit liability	Present value of defined benefit obligations

Basis of preparation (continued)

Use of estimates and judgements

The preparation of the consolidated financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income, expenses and disclosure of contingent liabilities. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on a periodic basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. In particular, information about significant areas of estimation, uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amounts recognized in the consolidated financial statements is included in the following notes:

Impairment of financial assets: The Group assesses on a forward-looking basis, the expected credit losses associated with its assets carried at amortised cost.
Leases: The Group considers all the extension-options under the commercial contracts for determining the lease-term which forms the basis for the measurement of right-of-use assets and the corresponding lease-liability.

All assets and liabilities are classified into current and non-current.

Assets

An asset is classified as current when it satisfies any of the following criteria:

it is expected to be realised in, or is intended for sale or consumption in, the Group's normal operating cycle;
b) it is held primarily for the purpose of being traded;
c) it is expected to be realised within 12 months after the reporting date;
d) or it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.

Current assets include the current portion of non-current financial assets.

All other assets are classified as non-current.

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

a) it is expected to be settled in the Group's normal operating cycle;
b) it is held primarily for the purpose of being traded;
c) it is due to be settled within 12 months after the reporting date; or
d) the Group does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Current liabilities include current portion of non-current financial liabilities.

All other liabilities are classified as non-current.

Operating cycle

Operating cycle is the time between the acquisition of assets for processing and their realization in cash or cash equivalents with a period of 12 months.

Basis of preparation (continued)

Measurement of fair values

A number of the Group's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

The Group has an established control framework with respect to the measurement of fair values. Significant valuation issues, if any, are reported to the Group's management.

Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs)

When measuring the fair value of an asset or a liability, the Group uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Group recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further information about the assumptions made in measuring fair values is included in the following notes:

Note 35 – share based payment arrangements; and
Note 37 – financial instruments.

COVID-19

On account of the Covid 19 pandemic, the Indian Central Government had imposed a nationwide stringent lockdown on 23 March 2020. The lockdown was in force till 31 May 2020. State-wise relaxations were introduced on a gradual basis from 1 June 2020. However, during the period of lockdown and even subsequently, the Group has not been severely affected, since it deals largely with sale of essential products. The Group has considered the possible effects that may result from COVID-19 on the carrying amounts of financial assets, receivables, inventories, property plant and equipment, intangibles as well as on liabilities accrued and the going concern assumption. In developing the assumptions considering the possible future uncertainties in the economic conditions because of this pandemic, the Group has used internal and external information. Having reviewed the underlying data and based on current estimates, the Group does not expect any material impact on the carrying amount of its assets and liabilities. The Group also does not expect any impact on the classification of its assets and liabilities. The impact of COVID-19 on the Group's financial statements may differ from that estimated as at the date of approval of these financial statements and the Group will continue to closely monitor any material changes to future economic conditions. The Group has also evaluated the impact of the same on the credit risk, liquidity risk, market risk, and interest risk and does not foresee any material impact.

Significant accounting policies

Financial instruments

Recognition and initial measurement

Trade receivables and debt securities issued are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Group becomes a party to the contractual provisions of the instrument.

A financial asset or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as measured at amortised cost, FVOCI or Fair Value Through Profit or Loss (FVTPL).

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Group changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Group may irrevocably elect to present subsequent changes in the investment's fair value in OCI (designated as FVOCI – equity investment). This election is made on an investment by investment basis.

All financial assets not classified as measured at amortised cost of FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets: Business model assessment

The Group makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;

Significant accounting policies (continued)

Financial instruments (continued)

Classification and subsequent measurement (continued)

how the performance of the portfolio is evaluated and reported to the Group’s management;
the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed; and
the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

Financial assets: Assessment whether contractual cash flows are solely payments of principal and interest

For the purpose of this assessment, ‘principal’ is defined as the fair value of the financial asset on initial recognition. ‘Interest’ is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risks and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Group considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Group considers:

contingent events that would change the amount or timing of cash flows;
terms that may adjust the contractual coupon rate, including variable interest rate features;
prepayment and extension features; and
terms that limit the Group’s claim to cash flows from specified assets (e.g. non-recourse features)

Financial assets: Subsequent measurement and gains and losses

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in the statement of profit or loss.
Financial assets at amortised cost	These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income and impairment are recognised in the statement of profit or loss. Any gain or loss on derecognition is recognised in the statement of profit or loss.
Equity investments at FVOCI	These assets are subsequently measured at fair value. Dividends are recognised as income in the statement of profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains or losses are recognised in OCI and are not reclassified to the statement of profit or loss.

Financial liabilities: Classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in the statement of profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense is recognised in the statement of profit or loss. Any gain or loss on derecognition is also recognised in the statement of profit or loss.

Significant accounting policies (continued)

Financial instruments (continued)

Derecognition

Financial assets

The Group derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Group enters into transactions whereby it transfers assets recognised on its balance sheet,but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

Financial liabilities

The Group derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire.

The Group also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in the statement of profit or loss.

Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

Compound financial instruments

Compound financial instruments issued by the Group comprise compulsorily convertible cumulative preference shares denominated in INR that can be converted to equity shares at the option of the holder, when the number of shares to be issued is fixed and does not vary with changes in fair value.

The liability component of a compound financial instrument is initially recognised at the fair value of a similar liability that does not have an equity conversion option. The equity component is initially recognised at the difference between the fair value of the compound financial instruments as a whole and the fair value of the liability component.

Subsequent to initial recognition, the liability component of a compound financial instrument is measured at fair value through the statement of profit and loss.

Significant accounting policies (continued)

Business Combination

Business combinations (other than common control business combinations) on or after 1 April 2015

As part of transition to Ind AS, the Group has elected to apply the relevant Ind AS, viz. Ind AS 103, Business Combinations , to the business combination that occurred after 1 April 2015. In accordance with Ind AS 103, the Group accounts for this business combination, using the acquisition method when control is transferred to the Group (see note 3b(i)). The consideration transferred for the business combination is generally measured at fair value as at the date the control is acquired (acquisition date), as are the net identifiable assets acquired. Any goodwill that arises is tested annually for impairment. Transaction costs are expensed as incurred, except to the extent related to debt or equity securities.

The consideration transferred does not include amounts related to the settlement of pre-existing relationships with the acquiree. Such amounts are generally recognised in profit and loss.

Any contingent consideration is measured at fair value at the date of acquisition. If an obligation to pay contingent consideration that meets the definition of a financial instrument is classified as equity, then it is not re-measured subsequently and settlement is accounted for within equity. Other contingent consideration is re-measured at fair value at each reporting date and changes in the fair value of the contingent consideration are recognised in profit and loss.

Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has right to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

Non-controlling interest (“NCI”)

NCI are measured at their proportionate share of the acquirees’ net identifiable assets at the date of acquisition. Changes in the Group’s interest in the subsidiary that do not result in a loss of control are accounted for as equity transactions.

Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

Property, plant and equipment

Recognition and measurement

Items of property, plant and equipment, are measured at cost, less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment comprises its purchase price, including non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

Significant accounting policies (continued)

Property, plant and equipment (continued)

Recognition and measurement (continued)

The cost of a self-constructed item of property, plant and equipment comprises the cost of materials and direct labour, any other costs directly attributable to bringing the item to working condition for its intended use, and estimated costs of dismantling and removing the item and restoring the site on which it is located.
If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognized in the statement of profit or loss.

Advance paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non-current assets and the cost of the assets not put to use before such date are disclosed under ‘capital work-in-progress’.

Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the

Group.

Depreciation

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual values over their estimated useful lives using the straight-line method and is generally recognised in the statement of profit or loss.

The useful lives of items of property, plant and equipment for the current and comparative periods are as follows:

Asset	Useful life
Computers, servers and accessories	3 years
Plant and machinery	1 to 15 years
Office equipment	3 to 15 years
Furniture and fixtures	3 to 10 years
Leasehold improvement	Useful life or lease term, whichever is shorter
Vehicles	8 years

Based on technical evaluation and consequent advice, the management believes that its estimates of useful lives as given above best represent the period over which management expects to use these assets, which is different, in certain cases, from the useful lives as prescribed under Part C of Schedule II of the Companies Act, 2013.

Depreciation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

Depreciation on additions (disposals) is provided on a pro-rata basis i.e. from (up to) the date on which asset is ready for use (disposed of).

Significant accounting policies (continued)

Goodwill and other intangible assets

Goodwill

Goodwill represents the cost of business acquired in excess of the Group’s interest in the net fair value of identifiable assets, liabilities and contingent liabilities of the acquiree. When the net fair value of the identifiable assets, liabilities and contingent liabilities acquired exceed the cost of business acquisition, a gain is recognised immediately in the net profit in the consolidated statement of profit or loss. Goodwill is measured at cost less accumulated impairment losses.

Goodwill is tested for impairment annually, at the end of each financial year.

Intangible assets

Recognition and measurement

Other intangible assets including those acquired by the Group in a business combination are initially measured at cost. Such intangible assets are subsequently measured at cost less accumulated amortisation and any accumulated impairment losses.

Subsequent expenditure

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is recognised in the statement of profit or loss as incurred.

Amortisation

Amortisation is calculated to write off the cost of intangible assets less their estimated residual values over their estimated useful lives using the straight line method, and is included in depreciation and amortisation in Statement of Profit and Loss.

The estimated useful lives are as follows:

Computer software 3 years
Intellectual property rights 3 years

Brand 3 years
IT platform 3 years
Trademark 3 years
Patents 3 years
Milk Partner relationship 5 years

Amortisation method, useful lives and residual values are reviewed at the end of each financial year and adjusted if appropriate.

Significant accounting policies (continued)

Leases

Effective from 1 April 2019, the Group has applied Ind AS 116 'Leases', which replaces the existing lease standard, Ind AS 17 'Leases' and other interpretations. The Group has applied Ind AS 116 using the modified retrospective approach and has accordingly not restated the comparative information. The Group at the inception of a contract, assesses whether a contract, is or contains a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Ind AS 116 introduces a single balance sheet lease accounting model for lessees. A lessee recognises a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. The Group has elected not to recognise right-of-use of assets and lease liabilities for short term leases that have a lease term of 12 months or less and leases of low value assets. The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term. Lessor accounting remains similar to the accounting under the previous standard i.e. lessor continues to classify leases as finance or operating lease.

This policy is applied to contracts entered into, or changed, on or after 1 April 2019. For contracts entered into before 1 April 2019, the determination of whether an arrangement is, or contains a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

As a lessee:
The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right of use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct cost incurred and an estimate of cost to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life or the end of the lease term. The estimated useful life of the right-of-use assets are determined on the same basis as those of property, plant and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate.

The lease payments include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Group is reasonably certain to exercise that option and payment of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is remeasured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments. When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset, or profit and loss if the right-of-use asset is already reduced to zero.
In the comparative period, leases in which a significant portion of the risks and rewards of ownership was not transferred to the Group as lessee was classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) was charged to profit or loss on a straight-line basis over the period of the lease unless the payments was structured to increase in line with expected general inflation to compensate for the lessor’s expected inflationary cost increases.

Significant accounting policies (continued)

Leases (Continued)

The Group has used the practical expedient, when applying Ind AS 116 to leases previously classified as operating leases under Ind AS 17 and therefore, has not reassessed whether a contract, is or contains a lease, at the date of initial application, relied on its assessment of whether leases are onerous, applying Ind AS 37 immediately before the date of initial application as an alternative to performing an impairment review, excluded initial direct costs from measuring the right of use asset at the date of initial application and used hindsight when determining the lease term if the contract contains options to extend or terminate the lease.

Inventories

Inventories are measured at the lower of cost and net realisable value. The cost of inventories is based on the first-in first-out formula, and

includes expenditure incurred in acquiring the inventories and other costs incurred in bringing them to their present location and condition.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated selling expenses.

The comparison of cost and net realisable value is made on an item-by-item basis.

Impairment

Impairment of financial assets

In accordance with Ind AS 109, the Group applies expected credit loss ("ECL") model for measurement and recognition of impairment loss on financial assets measured at amortised cost.

Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, ECL are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL.

Loss allowance for financial assets measured at amortised cost are deducted from gross carrying amount of the assets.

When determining and estimating estimated credit losses of a financial asset, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis based on the Group's historical experience and including forward looking information.

Measurement of expected credit losses
Expected credit losses are a probability weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive).

Presentation of allowance for expected credit losses in the balance sheet
Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

Write-off
The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Group determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write off.
Significant accounting policies (continued)

g. Impairment (continued)

Impairment of non-financial assets
The Group's non-financial assets, other than inventories and deferred taxes, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, the Group estimates the recoverable amount of the asset. For an asset or group of assets that does not generate largely independent cash inflows, the recoverable amount is determined for the cash generating unit to which the asset belongs. The recoverable amount of a CGU is higher of its 'Value in Use' and 'Fair Value less Costs to Sell'. 'Value in Use' is based on estimated future cash flows, discounted to their present value using a pre-tax discounting rate that reflects current market assessments of the time value of money and the risk specific to the CGU. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the Statement of Profit and Loss. If at the balance sheet date, there is an indication that if a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciable historical cost. An impairment loss is reversed only to the extent that the carrying amount of the asset does not exceed the net book value that would have been determined; if no impairment loss had been recognised.

Employee benefits

Short-term employee benefits

Employee benefits payable wholly within 12 months of receiving employee services are classified as short-term employee benefits. These benefits include salaries and wages, bonus and ex-gratia. Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the relative service is provided. A liability is recognised for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the amount of obligation can be estimated reliably.

Share-based payment transactions

The grant date fair value of equity settled share-based payment awards granted to employees is recognised as an employee expense, with a corresponding increase in equity, over the period that the employees unconditionally become entitled to the awards. The amount recognised as expense is based on the estimate of the number of awards for which the related service is expected to be met, such that the amount ultimately recognised as an expense is based on the number of awards that do meet the related service conditions at the vesting date. There are no share-based payment awards with non-vesting conditions.
The fair value of the amount payable to employees in respect of Stock Appreciation Rights ('SARs'), which are settled in cash, is recognised as an expense with a corresponding increase in liabilities, over the period during which the employees become unconditionally entitled to payment. The liability is remeasured at each reporting date and at settlement date based on the fair value of the SARs. Any changes in the liability are recognised in profit or loss.

Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. The Group makes specified monthly contributions towards Government administered provident fund scheme. Obligations for contributions to defined contribution plans are recognised as an employee benefit expense in the statement of profit or loss in the periods during which the related services are rendered by employees.

Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.
Significant accounting policies (continued)

Employee benefits (continued)

Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Group's gratuity benefit scheme is a defined benefit plan. The Group's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligation is performed annually by a qualified actuary using the projected unit credit method. Re-measurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised in OCI. The Group determines the net interest expense on the net defined benefit liability for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability, taking into account any changes in the net defined benefit liability during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in the statement of profit or loss.

Provisions (other than for employee benefits) and contingent liabilities

A provision is recognised if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost. Expected future operating losses are not provided for.

When no reliable estimate can be made, a disclosure is made as a contingent liability. A disclosure for a contingent liability is also made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Onerous contracts

A contract is considered to be onerous when the expected economic benefits to be derived by the Group from the contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision for an onerous contract is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before such a provision is made, the Group recognises any impairment loss on the assets associated with that contract.

Revenue

The Group recognises revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. A 5-step approach is used to recognise revenue as below:

Step 1: Identify the contract(s) with a customer
Step 2: Identify the performance obligation in contract
Step 3: Determine the transaction price
Step 4: Allocate the transaction price to the performance obligations in the contract
Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation

Significant accounting policies (continued)

j. Revenue (Continued)

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled revenue (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms. Unearned and deferred revenue ("contract liability") is recognised when there is billings in excess of revenues.

Sale of traded products

Revenue is recognised when a customer obtains control of the goods which is mainly upon delivery at the customer premises. Revenue is measured at fair value of the consideration received or receivable, after deduction of any trade discounts, volume rebates and any taxes or duties collected on behalf of the government which are levied on sales such as goods and services tax, etc. For certain contracts that permit the customer to return an item, revenue is recognised to the extent that it is probable that a significant reversal in the amount of cumulative revenue recognised will not occur. As a consequence, for those contracts for which the Group is unable to make a reasonable estimate of return, revenue is recognised sooner than when the return period lapses or a reasonable estimate can be made. A refund liability and an asset for recovery is recognised for these contracts and presented separately in the balance sheet.

Advertisement income

The Group derives revenue from advertisements hosted on its mobile based application and website. Revenue from advertisement income is recognized over the period of time.

Lease rentals from operating lease arrangements

Leases in which the Group as a lessor does not transfer substantially all the risks and rewards of ownership of the asset are classified as operating leases. Lease income from operating leases is recognised in the statement of profit and loss on a straight-line basis over the lease term, unless another systematic basis is more representative of the time pattern in which use benefit derived from the leased asset is diminished.

Recognition of interest income, dividend income or expense

Dividend income is recognized in the statement of profit or loss on the date on which the right to receive payment is established.

Interest income or expense is recognized using the effective interest method.

The ‘effective interest rate’ is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:
the gross carrying amount of the financial asset; or
the amortised cost of the financial liability.

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortised cost of the liability. However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

Significant accounting policies (continued)

Income tax

Income tax comprises current and deferred tax. It is recognized in the statement of profit or loss except to the extent that it relates to a business combination or an item recognized directly in equity or in other comprehensive income.

Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. Minimum Alternate Tax (MAT) under the provisions of the Income Tax Act is recognized as current tax in the statement of profit or loss. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognized amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Deferred tax

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognized in respect of carried forward tax losses and tax credits. Deferred tax is not recognized for:

temporary differences arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of the transaction;
temporary differences related to investments in subsidiary, associate and joint arrangement to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognized to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Group recognizes a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realized. Deferred tax assets – unrecognized or recognized, are reviewed at each reporting date and are recognized/reduced to the extent that it is probable/no longer probable respectively that the related tax benefit will be realized.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Group expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

Significant accounting policies (continued)

Foreign currency transactions

Foreign exchange transactions are recorded using the exchange rates prevailing on the dates of the respective transactions.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rates at the balance sheet date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at exchange rates when the fair value was determined. Non-monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at the date of transition. Exchange differences are recognized in the Statement of Profit and Loss.

Earnings/(loss) per share

The basic earnings / (loss) per share ('EPS') is computed by dividing the net profit / (loss) after tax for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. The number of shares used in computing diluted earnings per share comprises the weighted average number of shares considered for deriving basic earnings per share and also the weighted average number of equity shares that could have been issued on the conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period unless issued at a later date. In computing dilutive earning per share, only potential equity shares that are dilutive i.e. which reduces earnings per share or increases loss per share are included.

Cash flow statement

Cash flows are reported using the indirect method, whereby net profit / (loss) before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Group are segregated based on the available information.

Government grants

Government grants are recognized where there is reasonable assurance that the grant will be received and all attached conditions. When the grant relates to revenue, it is recognised in the statement of profit and loss on a systematic basis over the periods to which they relate. When the grant relates to an asset, it is treated as deferred income and recognised in the statement of profit and loss on a systematic basis over the useful life of the asset.

Recent Indian Accounting Standards (Ind AS)
The Ministry of Corporate Affairs ("MCA") through a notification dated 24 March 2021 amended Schedule III to the Companies Act, 2013. These amendments are applicable from 1 April 2021 and enhances the disclosures required to be made by the Company in its financial statements. As of now, the Company is evaluating the effect of these amendments on its financial statements.

Textual information (8)

Disclosure of significant accounting policies [Text Block]

Reporting entity
Supermarket Grocery Supplies Private Limited (referred to as the Company or SGSPL) together with its subsidiaries (collectively referred to as the Group) is primarily involved in the business of trading of grocery and other household products. The Group is also engaged in the business of building, deploying and maintaining smart vending machines for selling groceries and other food items.

The Company is a private limited Company incorporated and domiciled in India and has its registered office at Bengaluru, Karnataka, India.

The Group comprises the following consolidated entity:

Name	Relationship	% Shareholding as on 31 March 2020	% Shareholding as on 31 March 2019
Delyver Retail Network Private Limited	Subsidiary	100.00%	100.00%
Savis Retail Network Private Limited	Subsidiary	100.00%	85.20%
Dailyninja Delivery Services Private Limited	Subsidiary	98.72%	-

Basis of preparation

Statement of compliance

These consolidated financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of Companies Act, 2013, (the Act) and other relevant provisions of the Act.

The consolidated financial statements were authorized for issue by the Holding Company Board of Directors on 3 December 2020.

Details of the Groups accounting policies are included in Note 3.

Functional and presentation currency

These consolidated financial statements are presented in INR in millions, which is also the Groups functional currency.

Basis of measurement

The consolidated financial statements have been prepared on the historical cost basis except for the following items:

Items	Measurement basis
Certain financial assets and liabilities	Fair value
Employee Stock Option Plan	Fair value
Net defined benefit (asset)/liability	Fair value of plan assets less present value of defined benefit obligations

Basis of preparation (continued)
Use of estimates and judgements

The preparation of the consolidated financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income, expenses and disclosure of contingent liabilities. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on a periodic basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. In particular, information about significant areas of estimation, uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amounts recognized in the consolidated financial statements is included in the following notes:

Contingent liabilities: Contingent liabilities are not recognized in the consolidated financial statements but are disclosed in the notes. They are assessed continually to determine whether an outflow of resources embodying economic benefits has become probable. If it becomes probable that an outflow of future economic benefits will be required for an item previously dealt with as a contingent liability, a provision is recognized in the consolidated financial statements of the period in which the change in probability occurs (except in the extremely rare circumstances where no reliable estimate can be made).

Income taxes: Significant judgements are involved in determining the provision for income taxes, including the amount expected to be paid or recovered in connection with uncertain tax positions. Availability of future taxable profits against which deferred tax amount can be used.

Measurement of defined benefit obligations: Key actuarial assumptions used for actuarial valuation.

Impairment of financial assets: The Group assesses on a forward looking basis, the expected credit losses associated with its assets carried at amortised cost.

Property, plant and equipment: Useful life of asset.

Leases: The Group considers all the extension-options under the commercial contracts for determining the lease-term which forms the basis for the measurement of right-of-use assets and the corresponding lease-liability.

Other estimates: The preparation of consolidated financial statements involves estimates and assumptions that affect the reported amount of assets, liabilities, disclosure of contingent liabilities at the date of consolidated financial statements and the reported amount of revenues and expenses for the reporting period. Specifically, the Group estimates the probability of collection of accounts receivable by analyzing historical payment patterns, customer concentrations, customer credit-worthiness and current economic trends. If the financial condition of a customer deteriorates, additional allowances may be required.

Basis of preparation (continued)

All assets and liabilities are classified into current and non-current.

Assets

An asset is classified as current when it satisfies any of the following criteria:

it is expected to be realised in, or is intended for sale or consumption in, the Groups normal operating cycle;
b) it is held primarily for the purpose of being traded;
c) it is expected to be realised within 12 months after the reporting date;
d) or it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.

Current assets include the current portion of non-current financial assets.

All other assets are classified as non-current.

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

a) it is expected to be settled in the Groups normal operating cycle;
b) it is held primarily for the purpose of being traded;
c) it is due to be settled within 12 months after the reporting date; or
d) the Group does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Current liabilities include current portion of non-current financial liabilities.

All other liabilities are classified as non-current.

Operating cycle

Operating cycle is the time between the acquisition of assets for processing and their realization in cash or cash equivalents with a period of 12 months.

Measurement of fair values

A number of the Groups accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

The Group has an established control framework with respect to the measurement of fair values. Significant valuation issues, if any, are reported to the Groups management.

Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs)

Measurement of fair values (continued)

When measuring the fair value of an asset or a liability, the Group uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Group recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further information about the assumptions made in measuring fair values is included in the following notes:

Note 35 share based payment arrangements; and
Note 37 financial instruments.

COVID-19

On account of the COVID 19 pandemic, the Indian Central Government had imposed a nationwide stringent lockdown on 23 March 2020. The lockdown was in force till 31 May 2020. State-wise relaxations were introduced on a gradual basis from 1 June 2020. However, during the period of lockdown and even subsequently, the Group has not been severely affected, since it deals largely with sale of essential products. The Group has considered the possible effects that may result from COVID-19 on the carrying amounts of financial assets, receivables, inventories, property plant and equipment, intangibles, goodwill as well as on liabilities accrued and the going concern assumption. In developing the assumptions considering the possible future uncertainties in the economic conditions because of this pandemic, the Group has used internal and external information. Having reviewed the underlying data and based on current estimates, the Group does not expect any material impact on the carrying amount of its assets and liabilities. The Group also does not expect any impact on the classification of its assets and liabilities. The impact of COVID-19 on the Groups financial statements may differ from that estimated as at the date of approval of these financial statements and the Group will continue to closely monitor any material changes to future economic conditions. The Group has also evaluated the impact of the same on the credit risk, liquidity risk, market risk, and interest risk and does not foresee any material impact.

Going concern

The Group has incurred a net loss of INR 6,101.40 millions during the year ended 31 March 2020. However, as on that date the Groups net worth is INR 16,671.55 millions and the Groups current assets exceed its current liabilities by INR 14,619.86 millions. While the Group has registered significant growth in business over the years, it has also incurred significant losses in the past to invest in growth. However, management based on the growth in business recorded during the year and over the past several years, results of the Group post the balance sheet date and future projections, believes that it will be able to generate sufficient cash flows to meet its obligations as they fall due and accordingly continue as a going concern. These assumptions also require the Group to obtain fresh infusion of capital from investors to be able to continue as a going concern in the foreseeable future. These financial statements have been prepared on a going concern basis and do not include any adjustments relating to recoverability and classification of assets and liabilities.

Significant accounting policies

Financial instruments

Recognition and initial measurement

Trade receivables and debt securities issued are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Group becomes a party to the contractual provisions of the instrument.

Significant accounting policies (continued)

Financial instruments (continued)

Recognition and initial measurement (continued)

A financial asset or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as measured at amortised cost, FVOCI or Fair Value Through Profit or Loss (FVTPL).

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Group changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Group may irrevocably elect to present subsequent changes in the investments fair value in OCI (designated as FVOCI equity investment). This election is made on an investment by investment basis.

All financial assets not classified as measured at amortised cost of FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets: Business model assessment

The Group makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether managements strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
how the performance of the portfolio is evaluated and reported to the Groups management;
the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed; and
the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

Significant accounting policies (continued)

Financial instruments (continued)

Classification and subsequent measurement (continued)

Financial assets: Assessment whether contractual cash flows are solely payments of principal and interest

For the purpose of this assessment, principal is defined as the fair value of the financial asset on initial recognition. Interest is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risks and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Group considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Group considers:

contingent events that would change the amount or timing of cash flows;
terms that may adjust the contractual coupon rate, including variable interest rate features;
prepayment and extension features; and
terms that limit the Groups claim to cash flows from specified assets (e.g. non-recourse features)

Financial assets: Subsequent measurement and gains and losses

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in the statement of profit or loss.
Financial assets at amortised cost	These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income and impairment are recognised in the statement of profit or loss. Any gain or loss on derecognition is recognised in the statement of profit or loss.
Equity investments at FVOCI	These assets are subsequently measured at fair value. Dividends are recognised as income in the statement of profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains or losses are recognised in OCI and are not reclassified to the statement of profit or loss.

Financial liabilities: Classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in the statement of profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense is recognised in the statement of profit or loss. Any gain or loss on derecognition is also recognised in the statement of profit or loss.

Significant accounting policies (continued)

Financial instruments (continued)

Derecognition

Financial assets

The Group derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Group enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

Financial liabilities

The Group derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire.

The Group also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in the statement of profit or loss.

Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

Compound financial instruments

Compound financial instruments issued by the Group comprise compulsorily convertible cumulative preference shares denominated in INR that can be converted to equity shares at the option of the holder, when the number of shares to be issued is fixed and does not vary with changes in fair value.

The liability component of a compound financial instrument is initially recognised at the fair value of a similar liability that does not have an equity conversion option. The equity component is initially recognised at the difference between the fair value of the compound financial instruments as a whole and the fair value of the liability component.

Subsequent to initial recognition, the liability component of a compound financial instrument is measured at fair value through the statement of profit and loss.

Significant accounting policies (continued)

Business Combination

Business combinations (other than common control business combinations) on or after 1 April 2015

As part of transition to Ind AS, the Group has elected to apply the relevant Ind AS, viz. Ind AS 103, Business Combinations, to the business combination that occurred after 1 April 2015. In accordance with Ind AS 103, the Group accounts for this business combination, using the acquisition method when control is transferred to the Group (see note 3b(i)). The consideration transferred for the business combination is generally measured at fair value as at the date the control is acquired (acquisition date), as are the net identifiable assets acquired. Any goodwill that arises is tested annually for impairment. Transaction costs are expensed as incurred, except to the extent related to debt or equity securities.

The consideration transferred does not include amounts related to the settlement of pre-existing relationships with the acquiree. Such amounts are generally recognised in profit and loss.

Any contingent consideration is measured at fair value at the date of acquisition. If an obligation to pay contingent consideration that meets the definition of a financial instrument is classified as equity, then it is not re-measured subsequently and settlement is accounted for within equity. Other contingent consideration is re-measured at fair value at each reporting date and changes in the fair value of the contingent consideration are recognised in profit and loss.

Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has right to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

Non-controlling interest (NCI)

NCI are measured at their proportionate share of the acquirees net identifiable assets at the date of acquisition. Changes in the Groups interest in the subsidiary that do not result in a loss of control are accounted for as equity transactions.

Written put option issued to the non-controlling interest

The Group has issued written put options to non-controlling interest in a subsidiary of the Group in accordance with the terms of underlying agreement with such option holders. Should the option be exercised, the Group has to settle such liability by payment of cash.

Accounting on initial recognition:

The amount that may become payable under the option on exercise is recognised as a financial liability at its present value with a corresponding charge directly to the shareholders equity.

Significant accounting policies (continued)

Business Combination (continued)

Non-controlling interest (NCI) (continued)

Subsequent measurement:

The liability is subsequently accreted in the statement of profit and loss upto the redemption amount that is payable at the date on which the

option first becomes exercisable. In the event that the option expires unexercised, the liability is derecognised with a corresponding adjustment to equity.

Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

Property, plant and equipment

Recognition and measurement

Items of property, plant and equipment, are measured at cost, less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment comprises its purchase price, including non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

The cost of a self-constructed item of property, plant and equipment comprises the cost of materials and direct labour, any other costs directly attributable to bringing the item to working condition for its intended use, and estimated costs of dismantling and removing the item and restoring the site on which it is located.
If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognized in the statement of profit or loss.

Advance paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non-current assets and the cost of the assets not put to use before such date are disclosed under capital work-in-progress.

Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Group.

3. Significant accounting policies (continued)

Property, plant and equipment (continued)

Depreciation

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual values over their estimated useful lives using the straight-line method and is generally recognised in the statement of profit or loss.

The useful lives of items of property, plant and equipment for the current and comparative periods are as follows:

Asset	Useful life
Computers, servers and accessories	3 years
Plant and machinery	1 to 15 years
Office equipment	3 to 15 years
Furniture and fixtures	3 to 10 years
Leasehold improvement	Useful life or lease term, whichever is shorter
Vehicles	8 years

Based on technical evaluation and consequent advice, the management believes that its estimates of useful lives as given above best represent the period over which management expects to use these assets, which is different, in certain cases, from the useful lives as prescribed under Part C of Schedule II of the Companies Act, 2013.

Depreciation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

Depreciation on additions (disposals) is provided on a pro-rata basis i.e. from (up to) the date on which asset is ready for use (disposed of).

Goodwill and other intangible assets

Goodwill

Goodwill represents the cost of business acquired in excess of the Groups interest in the net fair value of identifiable assets, liabilities and contingent liabilities of the acquiree. When the net fair value of the identifiable assets, liabilities and contingent liabilities acquired exceed the cost of business acquisition, a gain is recognised immediately in the net profit in the consolidated statement of profit or loss. Goodwill is measured at cost less accumulated impairment losses.

Goodwill is tested for impairment annually, at the end of each financial year.

Intangible assets

Recognition and measurement

Other intangible assets including those acquired by the Group in a business combination are initially measured at cost. Such intangible assets are subsequently measured at cost less accumulated amortisation and any accumulated impairment losses.

Subsequent expenditure

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is recognised in the statement of profit or loss as incurred.
Significant accounting policies (continued)

Goodwill and other intangible assets (continued)

Intangible assets (continued)

Amortisation

Amortisation is calculated to write off the cost of intangible assets less their estimated residual values over their estimated useful lives using the straight line method, and is included in depreciation and amortisation in Statement of Profit and Loss.

The estimated useful lives are as follows:

Computer software 3 years
Intellectual property rights 3 years
Brand 3 years

IT platform 3 years
Trademark 3 years
Patents 3 years
Milk Partner relationship 5 years

Amortisation method, useful lives and residual values are reviewed at the end of each financial year and adjusted if appropriate.

Leases

Effective from 1 April 2019, the Group has applied Ind AS 116 'Leases', which replaces the existing lease standard, Ind AS 17 'Leases' and other interpretations. The Group has applied Ind AS 116 using the modified retrospective approach and has accordingly not restated the comparative information. The Group at the inception of a contract, assesses whether a contract, is or contains a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Ind AS 116 introduces a single balance sheet lease accounting model for lessees. A lessee recognises a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. The Group has elected not to recognise right-of-use of assets and lease liabilities for short term leases that have a lease term of 12 months or less and leases of low value assets. The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term. Lessor accounting remains similar to the accounting under the previous standard i.e. lessor continues to classify leases as finance or operating lease.

This policy is applied to contracts entered into, or changed, on or after 1 April 2019. For contracts entered into before 1 April 2019, the determination of whether an arrangement is, or contains a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

As a lessee:
The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right of use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct cost incurred and an estimate of cost to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

Significant accounting policies (continued)

Leases (continued)

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life or the end of the lease term. The estimated useful life of the right-of-use assets are determined on the same basis as those of property, plant and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate.

The lease payments include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Group is reasonably certain to exercise that option and payment of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is remeasured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments. When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset, or profit and loss if the right-of-use asset is already reduced to zero.

In the comparative period, leases of property, plant and equipment where the Group, as lessee, had substantially all the risks and rewards of ownership was classified as finance leases. Finance leases are capitalised at the leases inception at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in borrowings or other financial liabilities as appropriate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. Leases in which a significant portion of the risks
and rewards of ownership was not transferred to the Group as lessee was classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) was charged to profit or loss on a straight-line basis over the period of the lease unless the payments was structured to increase in line with expected general inflation to compensate for the lessors expected inflationary cost increases.

As a lessor:
Lease income from operating leases, where the Group is a lessor, is recognised in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflation.

Inventories

Inventories are measured at the lower of cost and net realisable value. The cost of inventories is based on the first-in first-out formula, and includes expenditure incurred in acquiring the inventories and other costs incurred in bringing them to their present location and condition.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated selling expenses.

The comparison of cost and net realisable value is made on an item-by-item basis.

Significant accounting policies (continued)

Impairment

Impairment of financial assets

In accordance with Ind AS 109, the Group applies expected credit loss (ECL) model for measurement and recognition of impairment loss on financial assets measured at amortised cost.

Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, ECL are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL.

Loss allowance for financial assets measured at amortised cost are deducted from gross carrying amount of the assets.

When determining and estimating estimated credit losses of a financial asset, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis based on the Groups historical experience and including forward looking information.

Measurement of expected credit losses
Expected credit losses are a probability weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive).

Presentation of allowance for expected credit losses in the balance sheet
Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

Write-off
The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Group determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write off.

Impairment of non-financial assets

The Groups non-financial assets, other than inventories and deferred taxes, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, the Group estimates the recoverable amount of the asset. For an asset or group of assets that does not generate largely independent cash inflows, the recoverable amount is determined for the cash generating unit to which the asset belongs. The recoverable amount of a CGU is higher of its Value in Use and Fair Value less Costs to Sell. Value in Use is based on estimated future cash flows, discounted to their present value using a pre-tax discounting rate that reflects current market assessments of the time value of money and the risk specific to the CGU. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the Statement of Profit and Loss. If at the balance sheet date, there is an indication that if a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciable historical cost. An impairment loss is reversed only to the extent that the carrying amount of the asset does not exceed the net book value that would have been determined; if no impairment loss had been recognised.

Significant accounting policies (continued)

Employee benefits

Short-term employee benefits

Employee benefits payable wholly within 12 months of receiving employee services are classified as short-term employee benefits. These benefits include salaries and wages, bonus and ex-gratia. Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the relative service is provided. A liability is recognised for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the amount of obligation can be estimated reliably.

Share-based payment transactions

The grant date fair value of equity settled share-based payment awards granted to employees is recognised as an employee expense, with a corresponding increase in equity, over the period that the employees unconditionally become entitled to the awards. The amount recognised as expense is based on the estimate of the number of awards for which the related service is expected to be met, such that the amount ultimately recognised as an expense is based on the number of awards that do meet the related service conditions at the vesting date. There are no share-based payment awards with non-vesting conditions.

The fair value of the amount payable to employees in respect of Stock Appreciation Rights (SARs), which are settled in cash, is recognised as an expense with a corresponding increase in liabilities, over the period during which the employees become unconditionally entitled to payment. The liability is remeasured at each reporting date and at settlement date based on the fair value of the SARs. Any changes in the

liability are recognised in profit or loss.

Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. The Group makes specified monthly contributions towards Government administered provident fund scheme. Obligations for contributions to defined contribution plans are recognised as an employee benefit expense in the statement of profit or loss in the periods during which the related services are rendered by employees.

Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Groups gratuity benefit scheme is a defined benefit plan. The Groups net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligation is performed annually by a qualified actuary using the projected unit credit method.

Significant accounting policies (continued)

Employee benefits

Defined benefit plans (continued)

Re-measurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised in OCI. The Group determines the net interest expense on the net defined benefit liability for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability, taking into account any changes in the net defined benefit liability during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in the statement of profit or loss.

Provisions (other than for employee benefits) and contingent liabilities

A provision is recognised if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost. Expected future operating losses are not provided for.

When no reliable estimate can be made, a disclosure is made as a contingent liability. A disclosure for a contingent liability is also made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Onerous contracts

A contract is considered to be onerous when the expected economic benefits to be derived by the Group from the contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision for an onerous contract is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before such a provision is made, the Group recognises any impairment loss on the assets associated with that contract.

Revenue

The Group recognises revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. A 5-step approach is used to recognise revenue as below:

Step 1: Identify the contract(s) with a customer
Step 2: Identify the performance obligation in contract
Step 3: Determine the transaction price
Step 4: Allocate the transaction price to the performance obligations in the contract
Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation
Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled revenue (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms. Unearned and deferred revenue (contract liability) is recognised when there is billings in excess of revenues.

Significant accounting policies (continued)

Revenue (continued)

Sale of traded products

Revenue is recognised when a customer obtains control of the goods which is mainly upon delivery at the customer premises. Revenue is measured at fair value of the consideration received or receivable, after deduction of any trade discounts, volume rebates and any taxes or duties collected on behalf of the government which are levied on sales such as goods and services tax, etc. For certain contracts that permit the customer to return an item, revenue is recognised to the extent that it is probable that a significant reversal in the amount of cumulative revenue recognised will not occur. As a consequence, for those contracts for which the Group is unable to make a reasonable estimate of return, revenue is recognised sooner than when the return period lapses or a reasonable estimate can be made. A refund liability and an asset for recovery is recognised for these contracts and presented separately in the balance sheet.

Advertisement income

The Group derives revenue from advertisements hosted on its mobile based application and website. Revenue from advertisement income is recognized over the period of time.

Lease rentals from operating lease arrangements

Leases in which the Group as a lessor does not transfer substantially all the risks and rewards of ownership of the asset are classified as operating leases. Lease income from operating leases is recognised in the statement of profit and loss on a straight-line basis over the lease term, unless another systematic basis is more representative of the time pattern in which use benefit derived from the leased asset is diminished.

Recognition of interest income, dividend income or expense

Dividend income is recognized in the statement of profit or loss on the date on which the right to receive payment is established.

Interest income or expense is recognized using the effective interest method.

The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:
the gross carrying amount of the financial asset; or
the amortised cost of the financial liability.

Significant accounting policies (continued)

Recognition of interest income, dividend income or expense (continued)

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortised cost of the liability. However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

Income tax

Income tax comprises current and deferred tax. It is recognized in the statement of profit or loss except to the extent that it relates to a business combination or an item recognized directly in equity or in other comprehensive income.

Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. Minimum Alternate Tax (MAT) under the provisions of the Income Tax Act is recognized as current tax in the statement of profit or loss. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognized amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Deferred tax

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognized in respect of carried forward tax losses and tax credits. Deferred tax is not recognized for:

temporary differences arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of the transaction;
temporary differences related to investments in subsidiary, associate and joint arrangement to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognized to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Group recognizes a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realized. Deferred tax assets unrecognized or recognized, are reviewed at each reporting date and are recognized/reduced to the extent that it is probable/no longer probable respectively that the related tax benefit will be realized.

Significant accounting policies (continued)

Income tax (continued)

Deferred tax (continued)

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Group expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

Foreign currency transactions

Foreign exchange transactions are recorded using the exchange rates prevailing on the dates of the respective transactions.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rates at the balance sheet date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at exchange rates when the fair value was determined. Non-monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at the date of transition. Exchange differences are recognized in the Statement of Profit and Loss.

Earnings/(loss) per share

The basic earnings / (loss) per share (EPS) is computed by dividing the net profit / (loss) after tax for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. The number of shares used in computing diluted earnings per share comprises the weighted average number of shares considered for deriving basic earnings per share and also the weighted average number of equity shares that could have been issued on the conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period unless issued at a later date. In computing dilutive earning per share, only potential equity shares that are dilutive i.e. which reduces earnings per share or increases loss per share are included.

Cash flow statement

Cash flows are reported using the indirect method, whereby net profit / (loss) before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Group are segregated based on the available information.

Significant accounting policies (continued)

Government grants

Government grants are recognized where there is reasonable assurance that the grant will be received and all attached conditions. When the grant relates to revenue, it is recognised in the statement of profit and loss on a systematic basis over the periods to which they relate. When the grant relates to an asset, it is treated as deferred income and recognised in the statement of profit and loss on a systematic basis over the useful life of the asset.

Recent Indian Accounting Standards (Ind AS)
Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards. There is no such notification which would have been applicable from April 1, 2020.

[610300] Notes - Accounting policies, changes in accounting estimates and errors

Unless otherwise specified, all monetary values are in Millions of INR

	01/04/2020 to 31/03/2021	01/04/2019 to 31/03/2020
Disclosure of changes in accounting policies, accounting estimates and errors [TextBlock]		
Disclosure of initial application of standards or interpretations [TextBlock]		
Whether initial application of an Ind AS has an effect on the current period or any prior period	No	No

37 Financial instruments

37.1 Categories of financial instruments

The carrying value and fair value of financial instruments by categories are as follows:

(Amount in INR Million)

Particulars	31 March 2021	31 March 2020
Measured at amortised cost		
Trade receivables	15,270.02	13,834.00
Cash and cash equivalents	32.27	287.45
Other bank balances	670.84	43.81
Loans	662.35	400.03
Other financial assets	45.57	33.29
	16,681.06	14,598.58
Measured at fair value through profit and loss (FVTPL)		
Investment in mutual funds	-	380.58
	-	380.58
Total financial assets	16,681.06	14,979.17
Financial liabilities		
Measured at amortised cost		

Borrowings	4,476.20	528.53
Lease liabilities	3,464.51	2,791.02
Trade payables	5,110.88	2,690.54
Other financial liabilities	1,507.82	1,089.30
Total financial liabilities	14,559.40	7,099.39

37.2 Fair value hierarchy

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes investment in equity, preference securities, mutual funds and debentures that have quoted price.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the-counter derivatives) is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unquoted equity securities.

37 Financial instruments (continued)

37.2 Fair value hierarchy (continued)

Fair value hierarchy of assets and liabilities measured at fair value as at 31 March 2021:

(Amount in INR Million)

Particulars	Total	Fair value measurement using

		Quoted prices in active markets (Level 1)	Significant observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Financial assets measured at fair value:				
Investment in mutual funds	-	-	-	-
Total	-	-	-	-

Fair value hierarchy of assets and liabilities measured at fair value as at 31 March 2020:

(Amount in INR Million)

Particulars	Total	Fair value measurement using		
		Quoted prices in active markets (Level 1)	Significant observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Financial assets measured at fair value:				
Investment in mutual funds	380.58	380.58	-	-
Total	380.58	380.58	-	-

There have been no transfers among Level 1, Level 2 and Level 3 during the period.

The fair value of mutual funds is based on market observable inputs.

The Group has not separately disclosed the fair values for financial assets and liabilities other than investment in mutual funds, because their carrying amounts are a reasonable approximation of the fair values.

37.3 Risk management framework

The Group's board of directors has overall responsibility for the establishment and oversight of the risk

management framework. The Group's management oversees how management monitors compliance with the risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. The management is assisted in its oversight role by internal audit. Internal audit undertakes both regular and

ad hoc reviews of risk management controls and procedures, the results of which are reported to the Board.

37.4 Financial risk management objective and policies

The Group's principal financial liabilities comprise borrowings, lease liabilities, trade payables and other payables. The main purpose of these financial liabilities is to finance the Group's operations. The Group's principal financial assets include investments, loans, trade and other receivables, cash and short-term deposits

The Group is exposed to the following risks from its use of financial instruments:
- Credit risk
- Liquidity risk
- Market risk

The note presents information about the Group's exposure to each of the above risks, the Group's objectives, policies and processes for measuring and managing risk, and the Group's management of capital. Further quantitative disclosures are included throughout these financial statements.

37 Financial instruments

37.5 Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations resulting in a financial loss to the Group. Credit risk arises principally from the Group’s trade receivables. Credit risk arises from cash held with banks and financial institutions, investment in mutual funds and commercial papers as well as credit exposure to customers, including outstanding accounts receivable. The maximum exposure to credit risk is equal to the carrying value of the financial assets. The objective of managing counterparty credit risk is to prevent losses in financial assets. The Group assesses the credit quality of the counterparties, taking into account their financial position, past experience and other factors.

The Group’s trade and other receivables are actively monitored to review credit worthiness of the customers to whom credit terms are granted and also avoid significant concentrations of credit risks.

The provision is provided in the books for trade receivables overdue:

(Amount in INR Million)

Particulars		31 March 2021	31 March 2020
Opening balance		25.17	6.10
Add: Additional ECL provision/(revesals)	7.42	19.07	
Total:		32.59	25.17

The Group continuously monitors receivables from customers and other counterparties, identified either individually or by the Group, and incorporates this information into its credit risk controls.

The Group’s management considers that all the above financial assets that are not impaired for each of the reporting dates under review are of good credit quality, including those that are past due.

The Group limits its exposure to credit risk by generally investing in liquid securities and only with counter-parties that have a good credit rating. The Group does not expect any losses from non- performance by these counter-parties, and does not have any significant concentration of exposures to specific industry section.

Credit risk on cash and cash equivalents is limited as the Group generally invests in deposits with banks and financial institutions with high credit ratings assigned by international and domestic credit rating agencies.

Information about major Customer

Revenue from single external customer is approximately Rs 52,613.13 million (previous year: Rs 30,098.63 million) representing 82.27% (previous year: 79.38%) of the Group's total revenue from the sale of traded products for the year ended 31 March 2021. Receivables from single external customer is approximately Rs 15,067 million (previous year: Rs 13,618.38 million) representing 98.41% (previous year: 98.60%) of Group's total receivables as of 31 March 2021. Apart from the aforesaid single customer, the Company does not have a significant credit risk exposure to any other single counterparty.

37.6 Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group has an appropriate liquidity risk management framework for the management of short, medium and long term funding and liquidity management requirements. The Group manages liquidity risk by maintaining adequate cash reserves, banking facilities and reserve borrowing facilities by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

The Group is internally responsible for managing the short term and long term liquidity requirements of the Group. Short term liquidity situation is reviewed daily internally. Long term liquidity position is reviewed on a regular basis by the Board of Directors and appropriate decisions are taken according to the situation.

Typically the Group ensures that it has sufficient cash on demand to meet expected operational expenses for a period of 60 days, including the servicing of financial obligations; this excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters.

The Group has been incurring significant losses over the years and has raised funding for its operations. Subsequent to the year end, the Group raised Rs. 11,000 million from Tata Digital Limited based on which, Group believes it will be able to fund its operations for the next year.

As of 31 March 2021, the Group had a working capital of Rs. 14,123.33 million, including cash and cash equivalents of Rs. 32.27 million and other bank balances of Rs. 670.84 million.

The table below provides details regarding the contractual maturities of significant financial liabilities as at 31 March 2021 and 31 March 2020

(Amount in INR Million)

As at

Particulars	31 March 2021			
	Less than 1 year	1-2 years	2 years and above	Total
Borrowings - Debentures	424.75	4,476.20	-	4,900.95
Lease liabilities	651.28	664.99	3,774.03	5,090.30
Trade payables	5,110.88	-	-	5,110.88
Other financial liabilities	955.66	127.41	-	1,083.07

Particulars	As at 31 March 2020			
	Less than 1 year	1-2 years	2 years and above	Total
Borrowings - Debentures	444.67	444.67	83.86	973.20
Lease liabilities	538.51	530.12	3,168.41	4,237.04
Trade payables	2,690.55	-	-	2,690.55
Other financial liabilities	270.57	374.07	-	644.64

37.7 Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Group's income or the value of its holdings of financial investments. Market risk is attributable to all market risk sensitive financial instruments including foreign currency receivables and payables and long term debt. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

- Currency risk

The Group is not exposed to significant currency risk as majority of the transactions are primarily denominated in Indian Rupees ("INR"), which is the national currency of India.

- Interest rate risk

The Group is not exposed to significant interest rate risk as it has only debentures.

37.8 Capital Management

The Group manages its capital to ensure that Group will be able to continue as going concern while maximising the return to stakeholders through the optimisation of the debt and equity balance.

The capital structure of the Group consists of net debt and total equity of the Group.

The Group's Gearing Ratio at end of the reporting period is as follows.

(Amount in INR Million)

Particulars	31 March 2021	31 March 2021
Debt	5,604.91	973.20
Cash and bank balances	(703.12)	(331.26)
Current investments	-	(380.58)
Other non-current financial assets	(26.07)	(17.96)
Net debt	4,875.74	243.40
Total equity	12,735.41	16,671.55

Gearing ratio	0.38	0.01

14 Share capital (continued)

(ii) Rights, preferences and restrictions attached to shares

Equity shares

The Company has a single class of equity shares. The equity shares are entitled to receive dividend as declared from time to time subject to payment of dividend to preference shareholders. The voting rights of an equity shareholder are in proportion to its share of the paid-up equity capital of the Company. Voting rights cannot be exercised in respect of shares on which any call or other sums presently payable have not been paid. In the event of liquidation of the Company, the holders of equity shares will be entitled to receive the residual assets of the Company, after distribution of all preferential amounts. The distribution will be in proportion to the number of equity shares held by the shareholder. The dividend proposed by the board of directors is subject to the approval of shareholders in the

ensuing Annual General Meetings. The Company declares and pays dividend in Indian rupees.

Preference shares

The holders of preference shares are entitled to dividend of 0.01% per annum on the nominal value of the share. Preference shares of all series carry preferential right as to dividend over equity shareholders. In the event of liquidation, preference shareholders have a preferential right over equity shareholders to be repaid to the extent of capital paid-up and dividend in arrears on such shares. Further, the preference share holders are entitled to receive the higher of pro-rata entitlement (i.e. after making all the necessary payments) on as if Converted basis or the Liquidation price. The above mentioned preference shares also contains conversion rights containing price protection features, which enable the investor to receive additional shares in the event subsequent issues are done at a price lower than the price at which the investor invested. The preference share holders shall be entitled to voting rights on prorata basis with the equity shares of the Company on as if converted basis.

0.01% Series 'A' Compulsorily Convertible Cumulative Preference Shares

The tenure of 0.01% Series 'A' compulsorily, convertible and cumulative preference shares allotted shall be till 19 years from the date of issuance of the same. The 0.01% Series 'A' compulsorily, convertible and cumulative preference shares shall be converted to fully paid equity shares in the ratio of 1:10, subject to certain anti-dilution provisions.

0.01% Series 'A-1' Compulsorily Convertible Cumulative Preference Shares

The Company has issued Series 'A-1' compulsorily convertible cumulative preference shares on 16 October 2013. Each share is convertible into 4.71 equity shares, subject to certain anti-dilution provisions.

0.01% Series 'A-2' Compulsorily Convertible Cumulative Preference Shares

The Company has issued Series 'A-2' compulsorily convertible cumulative preference shares on 7 February 2014. Each share is convertible into 4.46 equity shares, subject to certain anti-dilution provisions.

0.01% Series 'B-1' Compulsorily Convertible

Cumulative Preference Shares

The Company has issued Series 'B-1' compulsorily convertible cumulative preference shares on 20 October 2014. Each share is convertible into 12.09 equity shares, subject to certain anti-dilution provisions.

0.01% Series 'B-2' Compulsorily Convertible Cumulative Preference Shares

The Company has issued Series 'B-2' compulsorily convertible cumulative preference shares on 23 January 2015. Each share is convertible into 10.5 equity shares, subject to certain anti-dilution provisions.

0.01% Series 'C' Compulsorily Convertible Cumulative Preference Shares

The Company has issued Series 'C' compulsorily convertible cumulative preference shares on 25 February 2015. Each share is convertible into 9.47 equity shares, subject to certain anti-dilution provisions.

0.01% Series 'D' Compulsorily Convertible Cumulative Preference Shares

The Company has issued Series 'D' compulsorily convertible cumulative preference shares on various dates. Each share is convertible into 10.53 equity shares, subject to certain anti-dilution provisions.

0.01% Series 'D1' Compulsorily Convertible Cumulative Preference Shares

The Company has issued Series 'D1' compulsorily convertible cumulative preference shares on 30 March 2017. Each share is convertible into 10.53 equity shares, subject to certain anti-dilution provisions.

0.01% Series 'D2' Compulsorily Convertible Cumulative Preference Shares

The Company has issued Series 'D2' compulsorily convertible cumulative preference shares on 6 September 2017. Each share is convertible into 8.54 equity shares, subject to certain anti-dilution provisions.

31 Contingent liabilities and commitments (to the extent not provided for)

Contingent liabilities as at the year end is as below:

(Amount in INR Million)

Particulars	As at 31 March 2021	As at 31 March 2020
Bank guarantee	43.80	38.54
	43.80	38.54

Commitments as at the year end is as below:

(Amount in INR Million)

Particulars	As at 31 March 2021	As at 31 March 2020
Capital commitments	147.03	104.60
	147.03	104.60

31.1 The Supreme court of India in the month of February 2019 had passed a judgement relating to definition of wages under the Provident Fund Act, 1952. However, considering that there are numerous interpretative issues relating to this judgement and in the absence of reliable measurement of the provision for the earlier periods, the Group has made a provision for provident fund contribution pursuant to the judgement only for the month of March 2019. The Group will evaluate its position and update its provision, if required, on receiving further clarity on the subject. The Group does not expect any material impact of the same.

In October 2020, a cyber incident pertaining to a possible

31.2 compromise of database containing non-financial data was detected. In response, the Management together with external consultant has carried out a comprehensive assessment of the incident and its information technology environment and believes that the incident did not have any impact on the Group's financial information and its internal controls over financial reporting for the year ended 31 March 2021. The management has also taken appropriate measures in order to strengthen the process and policies in and around cyber security to avoid these events in future. Necessary complaints with relevant regulatory authorities have also been filed. The Group has not received any claims from any parties till the date of approval of these financial statements.

32 Leases

The Group had adopted Ind AS 116 'Leases' with the date of initial application being April 1, 2019. Ind AS 116 replaces Ind AS 17 – Leases and related interpretation and guidance. The Group has applied Ind AS 116 using the modified retrospective approach, under which the cumulative effect of initial application is recognised in retained earnings at April 1, 2019. As a result, the comparative information has not been restated.

On transition to Ind AS 116, the Group recognised right-of-use assets amounting to Rs 1,722.92 million, related accumulated depreciation amounting to Rs 294.83 million and lease liabilities amounting to Rs 1,659.59 million. The Group has discounted lease payments using the applicable incremental borrowing rate as at 1 April, 2019, which is 10% for measuring the lease liability.The expenses incurred by the Group is shown in the table below:

Lease liabilities	As at 31 March 2021	As at 31 March 2020
Impact of adoption of Ind AS 116	-	1,659.59
Opening balance	2,791.02	-
Additions during the year	972.20	1,353.77
Interest on lease liabilities	291.89	208.68
Rent	(590.60)	(431.02)
Total	3,464.52	2,791.02

Impact of adoption of Ind AS 116 on the consolidated statement of profit and loss	As at 31 March	As at 31 March 2020

	2021			
Interest on lease liabilities (refer note 27)			291.89	211.56
Depreciation of Right-of-use assets (refer note 28)			517.90	393.37
Expense relating to low-value leases and short term leases (refer note 29)	316.85	129.88		
Impact on the consolidated statement of profit and loss for the period		1,126.65	734.81

34 Employee benefits

(i) Defined contribution plans:

The Group makes contributions, determined as a specified percentage of employee salaries, in respect of qualifying employees towards Provident fund and Employee State Insurance, which are defined contribution plans. The Group has no obligations other than to make the specified contributions. The contributions are charged to the Consolidated Statement of Profit and Loss as they accrue. The amount recognised as an expense towards contribution to Provident fund and Employee State Insurance for the year aggregated to INR 169.27 million (31 March 2020: INR 128.72 million).

(ii) Defined benefit plan:

The Group has a defined benefit gratuity plan as per the Payment of Gratuity Act, 1972 (Gratuity Act). Every employee who has completed 5 years or more of service is eligible for gratuity on

separation worked out at 15 days salary (last drawn salary) for each completed year of service. The

obligation under the scheme is unfunded.

Based on actuarial valuation the following tables set out the amount recognised in the financial statements:

					(Amount in INR Million) For the year ended 31 March 2019
Particulars				For the year ended 31 March 2021	For the year ended 31 March 2020
Expense recognised in the Statement of profit and loss:					
Service cost				81.30	62.51
Net interest expenses			11.47	8.37	
Component of defined benefit costs recognised in the Statement of profit and loss	92.77	70.88			
Remeasurement on the net defined benefit liability:					
Remeasurement on the net defined benefit liability:					
Actuarial (gain)/loss arising from change in demographic assumptions		(0.00)	(0.82)		
Actuarial loss/(gain) arising from changes in financial assumptions		-	15.14		

Actuarial (gain)/loss arising from changes in experience adjustments		(11.04)	(23.01)		
Components of defined benefit costs recognised in other comprehensive income	(11.04)	(8.69)			
Total				81.73	62.19

The current service cost and the net interest expense for the year are included in the 'Employee benefits expense' line item in the statement of profit and loss. The remeasurement of the net defined benefit liability is included in other comprehensive income.

34 Employee benefits (continued)

(ii) Defined benefit plan:

The amount included in the balance sheet arising from the entity's obligation in respect of its defined benefit plans is as follows:

(Amount in INR Million)

Particulars	As at 31 March 2021	As at 31 March 2020
Opening net defined benefit	169.34	109.27

obligation						
Expenses charged to the statement of profit and loss			92.77	70.88		
Amount recognised outside the statement of profit and loss		(11.04)	(8.69)			
Benefits paid					(5.10)	(2.12)
Closing net defined benefit obligation				245.96	169.34	

(Amount in INR Million)

Reconciliation of present value of the defined benefit obligation		As at 31 March 2021	As at 31 March 2020			
Opening defined benefit obligation				169.34	109.27	
Service cost					81.30	60.43
Past service cost					-	2.08
Interest cost					11.47	8.37
Benefits paid					(5.10)	(2.12)

Leases

The Group has adopted Ind AS 116 'Leases' with the date of initial application being April 1, 2019. Ind AS 116 replaces Ind AS 17 Leases and related interpretation and guidance. The Group has applied Ind AS 116 using the modified retrospective approach, under which the cumulative effect of initial application is recognised in retained earnings at April 1, 2019. As a result, the comparative information has not been restated. In adopting Ind AS 116, the Group has applied the below practical expedients:
The Group has applied a single discount rate to a portfolio of leases with reasonably similar characteristics
The Group has treated the leases with remaining lease term of less than 12 months as if they were "short term leases"
The Group has not applied the requirements of Ind AS 116 for leases of low value assets (assets of less than USD 5,000 in value)
The Group has excluded the initial direct costs from measurement of the right-of-use asset at the date of transition
The Group has used hindsight, in determining the lease term if the contract contains options to extend or terminate the lease
On transition to Ind AS 116, the Group recognised right-of-use assets amounting to Rs 1,722.92 million and lease liabilities amounting to Rs 1,659.59 million. The Group has discounted lease payments using the applicable incremental borrowing rate as at 1 April, 2019, which is 10% for measuring the lease liability.

Lease liabilities	As at 31 March 2020

Impact of adoption of Ind AS 116		1,659.59
Additions during the year		1,353.77
Interest on lease liabilities		211.56
Rent		(431.02)
Total		2,793.90

Impact of adoption of Ind AS 116 on the consolidated statement of profit and loss	As at 31 March 2020
Interest on lease liabilities (refer note 27)	211.56
Depreciation of Right-of-use assets (refer note 28)	393.37
Impact on the consolidated statement of profit and loss for the period	604.93

37 Financial instruments

37.1 Categories of financial instruments

The carrying value and fair value of financial instruments by categories are as follows:

(Amount in INR Million)

Particulars	31 March 2020	31 March 2019
Measured at amortised cost		
Trade receivables	13,834.00	9,334.26
Cash and cash equivalents	287.45	122.41
Other bank balances	43.81	74.86
Loans	400.03	330.41
Other financial assets	33.29	543.07
Investment in Commercial Paper	-	467.79
	14,598.58	10,872.79
Measured at fair value through profit and loss (FVTPL)		
Investment in mutual funds	380.58	
	380.58	-
Total financial assets	14,979.17	10,872.79
Financial liabilities		

	Measured at amortised cost		
	Borrowings	528.53	7.59
	Lease liabilities	2,791.02	-
	Trade payables	2,690.55	4,169.69
	Other financial liabilities	1,089.30	327.59
	Total financial liabilities	7,099.40	4,504.87

37.2 Fair value hierarchy

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes investment in equity, preference securities, mutual funds and debentures that have quoted price.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the-counter derivatives) is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unquoted equity securities.

37 Financial instruments (continued)

37.2 Fair value hierarchy (continued)

Fair value hierarchy of assets and liabilities measured at fair value as at 31 March 2020:

(Amount in INR Million)

Particulars	Total	Fair value measurement using	
	Quoted prices in active markets (Level 1)	Significant observable inputs (Level 2)	Significant unobservable inputs (Level 3)

Financial assets measured at fair value:

Investment in mutual funds	380.57	380.57	-	-
Total	380.57	380.57	-	-

There have been no transfers among Level 1, Level 2 and Level 3 during the period.

The fair value of mutual funds is based on market observable inputs.

The Group has not separately disclosed the fair values for financial assets and liabilities other than investment in subsidiaries and investment in mutual funds, because their carrying amounts are a reasonable approximation of the fair values.

37.3 Risk management framework

The Group's board of directors has overall responsibility for the establishment and oversight of the risk management framework. The Group's management oversees how management monitors compliance with the risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. The management is assisted in its oversight role by internal audit. Internal audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the Board.

37.4 Financial risk management objective and policies

The Group's principal financial liabilities comprise borrowings, lease liabilities, trade payables and other payables. The main purpose of these financial liabilities is to finance the Group's operations. The Group's principal financial assets include investments, loans, trade and other receivables, cash and short-term deposits

The Group is exposed to the following risks from its use of financial instruments:
- Credit risk
- Liquidity risk
- Market risk

The note presents information about the Group's exposure to each of the above risks, the Group's objectives, policies and processes for measuring and managing risk, and the Group's management of capital. Further quantitative disclosures are included throughout these financial statements.

Textual information (32)

Disclosure of share-based payment arrangements [Text Block]

35 Share based payments
Description of share-based payment arrangements The Group has the following share-based payment arrangement for employees.
(i) Supermarket Grocery Employee Stock Option plan, 2013 (the 2013 plan)
The 2013 plan was approved by the Board of Directors pursuant to resolution passed at its meeting held on 1 October 2013 read with special resolution passed by the shareholders at the Extraordinary General Meeting held on 7 October 2013. The plan entitles the employees with a right but not an obligation to purchase or subscribe at a future date the shares underlying the option at a pre-determined price, subject to compliance with vesting conditions. All exercised options shall be settled by physical delivery of equity shares. As per the plan, holders of vested options are entitled to purchase one equity share of Re 1 each for every option at an exercise price, as determined by the ESOP Committee. The Group has computed the fair value of the options using Black-Scholes-Merton model for the purpose of accounting of employee stock compensation expense over the vesting period of the options.
(a) Under the aforesaid plan, no share options have been granted to employees during the current and previous year.
(b) The number and reconciliation of the share options under the share option plan are as follows:

(No.of options)

Reconciliation of outstanding share options	As at 31 March 2020	As at 31 March 2019
Outstanding at the beginning of the year	19,30,683	19,30,683
Outstanding at the end of the year	19,30,683	19,30,683
Exercisable at the end of the year	19,30,683	19,30,683

No options have been exercised during the previous year and current year.

c) During the year under the above plan, the Group recorded a share based payment expense with respect to such options of Nil (31 March 2019: Nil) in the statement of profit and loss.

(ii) Supermarket Grocery Employee Stock Option plan, 2014 (the 2014 plan)

The 2014 plan was approved by the Board of Directors pursuant to resolution passed at its meeting held on 1 December 2014 read with special resolution passed by the shareholders at the Extraordinary General Meeting held on 29 December 2014. The plan entitles the employees with a right but not an obligation to purchase or subscribe at a future date the shares underlying the option at a pre-determined price, subject to compliance with vesting conditions. All exercised options shall be settled by physical delivery of equity shares. As per the plan, holders of vested options are entitled to purchase one equity share of Re 1 each for every options at an exercise price, as determined by the ESOP Committee.
The Group has computed the fair value of the options using Black-Scholes-Merton model for the purpose of accounting of employee stock compensation expense over the vesting period of the options.

35 Share based payments (continued)

(a) The number and reconciliation of the share options under the share option plan are as follows:

(No.of options)

Reconciliation of outstanding share options	As at 31 March 2020	As at 31 March 2019
Outstanding at the beginning of the year	14,59,491	14,79,741
Granted during the year	-	-
Exercised during the year	-	-
Forfeited during the year	(3,500)	(20,250)
Outstanding at the end	14,55,991	14,59,491
Exercisable at the end	13,47,491	12,21,616

There are no options exercised in the current year under the 2014 plan.

b) During the year, the Group recorded a share based payment expense with respect to such options of Rs. 11.60 million (31 March 2019: Rs. 25.45 million) in the consolidated statement of profit and loss.

(iii) Supermarket Grocery Employee Stock Option plan, 2018 (the 2018 plan)

The 2018 plan was approved by the Board of Directors pursuant to resolution passed at its meeting held on 16 July 2018 read with special resolution passed by the shareholders at the Extraordinary General Meeting held on 29 September 2018. The plan entitles the employees with a right but not an obligation to purchase or subscribe at a future date the shares underlying the option at a pre-determined price, subject to compliance with vesting conditions. All exercised options shall be settled by physical delivery of equity shares or as provided under the 2018 plan. As per the plan, holders of vested options are entitled to purchase one equity share of Re 1 each for every option at an exercise price, as determined by the ESOP Committee.
The Group has computed the fair value of the options using Black-Scholes-Merton model for the purpose of accounting of employee stock compensation expense over the vesting period of the options.

(a) The terms and conditions related to the grant of the share options are as follows:

			(No.of options)
Employees entitled	Vesting conditions	For the year ended 31 March 2020	For the year ended 31 March 2019
Specified employees	One to four years of service from grant date	80,841	14,42,280
Total share options		80,841	14,42,280

35 Share based payments (continued)

(b) The number and reconciliation of the share options under the share option plan are as follows:

(No.of options)

Reconciliation of outstanding share options	As at 31 March 2020	As at 31 March 2019

Outstanding at the beginning of the year	14,38,880	-
Granted during the year	80,841	14,42,280
Exercised during the year	-	-
Forfeited during the year	(30,444)	(3,400)
Outstanding at the end	14,89,277	14,38,880
Exercisable at the end	3,58,020	-

(c) The fair value per option is measured based on the Black-Scholes-Merton model, which is as below:

Measurement of fair value	Number of options	Range of fair value per option (INR)
From 1 April 2018 to 31 March 2019	14,42,280	585.50 - 751.82
From 1 April 2019 to 31 March 2020	80,841	584.46 - 813.89

(d) The fair value per options mentioned above is calculated on the grant date using the Black-Scholes-Merton model with the following assumptions:

Assumptions	For the year ended 31 March 2020	For the year ended 31 March 2019
Risk free interest rate	6.83%	7.35%
Expected volatility	17.65% - 18.34%	18.94% - 20.28%
Expected life	5 - 7 years	5 - 7 years

e) During the year, the Group recorded a share based payment expense of Rs. 293.44 million (31 March 2019: Rs. 321.10 million) in the consolidated statement of profit and loss.

(iv) Supermarket Grocery Employee Stock Appreciation Rights Plan, 2018 (the 2018 SAR plan)

The 2018 SAR plan was approved by the Board of Directors pursuant to resolution passed at its meeting held on 16 July 2018 read with special resolution passed by the shareholders at the Extraordinary General Meeting held on 29 September 2018. The plan entitles the employees with a right to claim cash payment for the difference between the price at which the share is either listed (in case of an IPO) or transferred (in case of an acquisition) and the face value of a share (which in this case is Rupee one), subject to compliance with vesting conditions. The Group has accounted for this plan as a cash settled share based payment plan.
The Group has computed the fair value of the SARs' using Black-Scholes-Merton model for the purpose of accounting of employee stock compensation expense over the vesting period of the rights.

(a) The terms and conditions related to the grant of the stock appreciation rights are as follows:

		(No.of rights)	
Employees entitled	Vesting conditions	As at 31 March 2020	As at 31 March 2019
Specified employees	One to four years of service from grant date	22,080	6,78,720
Total share options		22,080	6,78,720

(b) The number and reconciliation of the stock appreciation rights under the 2018 SAR plan are as follows:

(No.of rights)

Reconciliation of outstanding stock appreciation rights	As at 31 March 2019	As at 31 March 2018
Outstanding at the beginning of the year	6,77,120	-
Granted during the year	22,080	6,78,720
Forfeited during the year	(12,000)	(1,600)
Outstanding at the end	6,87,200	6,77,120
Exercisable at the end	-	-

35 Share based payments (continued)

(iv) Supermarket Grocery Employee Stock Appreciation Rights Plan, 2018 (the 2018 SAR plan) (continued)

(c) The fair value per option is measured based on the Black-Scholes-Merton model, which is as below:

Measurement of fair value	Number of options	Range of fair value per option (INR)
From 1 April 2018 to 31 March 2019	6,78,720	585.50 - 751.82
From 1 April 2019 to 31 March 2020	22,080	584.46 - 813.89

(d) The fair value per stock appreciation rights mentioned above is calculated on the grant date and as at 31 March 2020 using the Black-Scholes-Merton model with the following assumptions:

Assumptions	For the year ended 31 March 2020	For the year ended 31 March 2019
Risk free interest rate	6.83%	7.35%
Expected volatility	17.65% - 18.34%	18.94% - 20.28%
Expected life	5 - 7 years	5 - 7 years

e) During the year, the Group recorded a share based payment expense with respect to such rights of Rs. 183.45 million (31 March 2019: Rs. 183.43 million) in the consolidated statement of profit and loss.

(v) Savis Employee Stock Option Scheme - 2016

The 2016 plan was approved by the Board of Directors of Savis pursuant to resolution passed at its meeting held on 09 November 2016 read with special resolution passed by the shareholders at the Extraordinary General Meeting held on 10 November 2016. The plan entitles the employees with a right but not an obligation to purchase or subscribe at a future date the shares underlying the option at a pre-determined price, subject to compliance with vesting conditions. All exercised options shall be settled by physical delivery of equity shares. As per the plan, holders of vested options are entitled to purchase one equity share of Re 10 each for every option at an exercise price, as determined by the ESOP Committee. Savis has computed the fair value of the options using Black-Scholes-Merton model for the purpose of accounting of employee stock compensation expense over the vesting period of the options.

(a) The number and reconciliation of the share options under the share option plan are as follows:

(No.of options)

Reconciliation of outstanding share options	For the year ended 31 March 2020	For the year ended 31 March 2019
Outstanding at the beginning	1,125	1,478
Granted during the year	-	-
Exercised during the year	-	(17)
Forfeited during the year	(1,125)	(336)
Outstanding at the end	-	1,125
Exercisable at the end	-	416

The weighted average share price of option exercised under the 2016 Scheme on the date of exercise was INR Nil per share (31 March 2019: INR 10,972).

(b) The details relating to the fair value per option based on the Black-Scholes-Merton model along with assumptions are

not disclosed as there are no stock options granted during the current and previous year

(c) During the year ended 31 March 2020, the Group has cancelled the stock options given to the employees on its own shares as disclosed above, which is treated as an acceleration of vesting, requiring any unamortised compensation cost to be recognised immediately.

(d) During the year under the above plan, the Group recorded a share based payment expense of INR 1.81 (Previous year: INR 2.46) in the consolidated statement of profit and loss.
